Flowserve Valtek Control Products Installation Mark One ...

A three-way version of the widely used Valtek Mark One valve, the Valtek® Mark One™ Three-Way valve is used for combining or diverting service. Like the Mark One, it offers superior performance in liquid and gaseous services in simple, rugged design.

Linear Globe/Angle Control Valves - Mark One ... - Flowserve

The Mark One valve is designed so the spring, supply air pressure and fluid pressure itself combine to produce exceptionally tight shutoff. A self-aligning seat ring further enhances the shutoff capability of the Mark One valve. The Mark One valve is typically double top-stem guided and completely avoids contact between the plug and seat retainer.
