Prices are based on the customer supplying suitable donor parts such as engine block, cylinder head, crankshaft and sump all depending on the customers requirements however we have a large stock of core units available at extra ...

Kent Crossflow - HPE Motorsport

Ford 1600 crossflow 711 engine again for my escort. Kents are quite easy to tune to GT spec, which usually means the biggest capacity block, slightly bigger valves (usually taken care of with a performance head), GT cam free flow exhaust and twin choke Weber - you should see around 80-90bhp.

Ford Engines - Ford Kent Crossflow engine (1959-1984)

This engine was introduced in the Ford Mk2 Cortina and differs from the earlier units by having the carb on the left and the exhaust on the right - hence, ' crossflow. ' They also varied from Pre-X/Flows in that the combustion chamber was shifted from the head to the bowl of the piston and were know as BIP engines (Bowl In Piston).

Tuning guides for Kent / X-Flow - Classic Ford

The Ford Kent is an internal combustion engine from Ford of Europe. Originally developed in 1959 for the Ford Anglia, it is an in-line four-cylinder overhead-valve – type pushrod engine with a cast-iron cylinder head and block. The Kent family can be divided into three basic sub-families; the original pre-Crossflow Kent, the Crossflow (the most prolific of all versions of the Kent), and the ...

Ford Kent engine - Wikipedia

What cam does the 1700 x-flow have as supplied by Caterham in supersprint spec, I was led to believe that it was a Kent 234, is this correct? If so would a move to a 244 cam be beneficial, especially on the track, rather than the road (given the valves remaining as supersprint size), or would a fair amount of head work be needed before the cam upgrade became worthwhile?

ideal camshaft for road xflow | Lotus Seven Club

Kent X/F 1100 - 1300 - 1600 Crossflow Exchange Standard 1100 - 1300 - 1600 X/Flow Kent Engines Can be fitted in place of any size X/Flow engine. Suits any of the following vehicles : Capri, Cortina, Escort, Transit, Ginetta, Lotus 7, Westfield 7, Caterham 7, Marcos, Morgan, TVR and all Kit Cars etc.

Kent X/F 1100 - 1300 - 1600 Crossflow

A redesign gave it a cross-flow type cylinder head, hence the Kent ' s alternative name Ford Crossflow. It would go on to power the smaller-engined versions of the Ford Cortina and Ford Capri, the first and second editions of the European Escort. It also featured in the Fiesta Mk1 1.3, and the Mk1 XR2, using the US 1600 bottom end and GT spec head and cam. The Crossflow featured a change in ...

Building a Ford Crossflow 1600 | 244 Rally Cam , 1300 GT ...

For those desiring a meaty, big capacity road engine and less concerned with originality, a safer route to follow is to obtain one of the late type (South African) 711M crossflow blocks and have it bored to 85mm, which gives 1760cc on the standard crossflow 1600 block. Carefully assembled by an experienced engine builder, using a tuftrided crank, with a decently modified big valve head and ...
