If a KCC is an in-process dimension, a u filled diamond symbol will be used on SEC in-process drawings to indicate statistical process control requirement. KCCs require ongoing monitoring per an approved Part Control Plan and should be considered as candidates for process improvement.

~~Key Characteristic Designation System Doc. No. QAP-001 ...~~

Statistical Process Control is used to control various processes. It allows manufactures to take appropriate action to achieve and maintain a state of statistical control and improve process capability. One way of using this data is to calculate the process capability. Reference AIAG Statistical Process Control (SPC- 3).

~~Key Characteristic Designation System Process Experienced In the mid-1980s, PQ Systems collaborated with Dr. W. Edwards Deming, Ford Motor Company, and General Motors to bring Deming's quality principles and statistical process control methods to a national level. Since then, we've continued to work to help manufacturers improve quality.~~
