The Hills and the Vale Training Manual for Organic Agriculture

Reproduction of the original: Domesday Book and Beyond by Frederic William Maitland

The author provides a focused overview of the field, emphasizing how bones are used to study past human-animal interactions.

The production of this manual is a joint activity between the Climate, Energy and Tenure Division (NRC) and the Technologies and practices for smallholder farmers (TECA) Team from the Research and Extension Division (DDNR) of FAO Headquarters in Rome, Italy. The realization of this manual has been possible thanks to the hard review, compilation and edition work of Nadia Scialabba, Natural Resources officer (NRC) and Ilka Gomez and Lisa Thivant, members of the TECA Team. Special thanks are due to the International Federation of Organic Agriculture Movements (IFOAM), the Research Institute of Organic Agriculture (FiBL) and the International Institute for Rural Reconstruction (IIRR) for their valuable documents and publications on organic farming for smallholder farmers.

Folk Narratives

A classic in folklore scholarship arranged in 2 parts. Folk Narratives contains tales told for edification or delight, but not thought to be factually true. Folk Legends presents tales the tellers believed to be records of actual events.

Thomas Mann predicted that no manner or mode in literature would be so typical or so pervasive in the twentieth century as the grotesque. Assuredly he was correct. The subjects and methods of our comic literature (and much of our other literature) are regularly disturbing and often repulsive—no laughing matter. In this ambitious study, John R. Clark seeks to elucidate the major tactics and topics deployed in modern literary dark humor. In Part I he explores the satiric strategies of authors of the grotesque, strategies that undercut conventional usage and form: the de-basement of heroes, the denigration of language and style, the disruption of normative narrative technique, and even the debunking of authors themselves. Part II surveys major recurrent themes of grotesquerie: tedium, scatology, cannibalism, dystopia, and Armageddon or the end of the world. Clearly the literature of the grotesque is obtrusive and ugly, its effect morbid and disquieting—and deliberately meant to be so. Grotesque literature may be unpleasant, but it is patently insightful. Indeed, as Clark shows, all of the strategies and topics employed by this literature stem from age-old and spirited traditions. Critics have complained about this grim satiric literature, asserting that it is dank, cheerless, unsavory, and negative. But such an interpretation is far too simplistic. On the contrary, as Clark demonstrates, such grotesque writing, in its power and its prevalence in the past and present, is in fact conventional, controlled, imaginative, and vigorous—no mean achievements for any body of art.

Excerpt from Round About Wiltshire Wiltshire is a county towards which strangers have always seemed to me to cultivate a quite peculiar vagueness, some times even as regards its position on the map of England. Till the advent of the motor reopened, so to speak, the Bath Road, promoting such familiarity as the motorist may or may not achieve, and the military annexed a corner' of Salisbury Plain, very few strangers, save antiquarians, took much notice of a county which the Royal and noble sportsmen of the middle ages and ensuing periods held in such pre eminent esteem. The research project "Special Places; Special People" is designed to provide insight and advice in the management of schools and their grounds for the benefit of children. This document describes the project's research methodology and findings, explores some of the wider implications arising from the study, and suggests ways in which schools might embark upon effecting change. Research findings are discussed on how children read the external environment and school grounds. Issues arising from these findings examine the importance of school grounds to children in a modern society, the messages school grounds convey about the ethos of schools, and children's attitudes and behavior that are determined by the school grounds and the way they are managed. The report's concluding section contains an alphabetical listing of references and resource information on school grounds development, play theory, children and the environment, children's games, and lunchtime supervision and management. English Villages

The classic postapocalyptic thriller with "all the reality of a vividly realized nightmare" (The Times, London). Triffids are odd, interesting little plants that grow in everyone's garden. Triffids are no more than mere curiosities—until an event occurs that alters human life forever. WH turns into a bizarre, green inferno that blinds everyone and renders humankind helpless. What follows is even stranger: spores from the inferno cause the triffids to suddenly take on a life of their own. They become large, crawling vegetation, with the ability to uproot and roam pain and agony. William Masen somehow managed to escape being blinded in the inferno, and now after leaving the hospital, he is one of the few survivors who can see. And he may be the only one who can save his species from chaos and eventual extinction . . . With more than a landmark of speculative fiction, and "an outstanding and entertaining novel" (Library Journal). "A thoroughly English apocalypse, it rivals H. G. Wells in conveying how the everyday invaded by the alien would feel. No wonder Stephen King admires Wyndham so much." —Ramsey Campbell

It's absolutely convincing, full of little telling details, and that sweet, warm sensation of horror and mystery." —Joe R. Lansdale

"Hypnotic....It is ever tempting to try to fathom his restless spirit and his determination to challenge fate." —Janet Maslin, New York Times Werner Herzog (Grizzly Man) is one of the most revered and enigmatic filmmakers of our time, and Fitzcarraldo is one of his most honored of the making of the monumental, problematical motion picture, which involved, among other things, major cast changes and reshoots, and the hauling (without the use of special effects) of a 360-ton steamship over a mountain , Conquest of the Useless is a work of art unto itself, a delirium of the jungle. With fascinating observations about crew and players—including Herzog's lead, the somewhat demented internationally renowned star Klaus Kinski—and breathtaking insights into the filmmaking process that are uniquely Werner Herzog, Conquest of the Useless is cinematic master.
