**How to Set a Photo as Your Windows Desktop Wallpaper ...**

Microsoft Internet Explorer users have the option of setting any image they view on the Internet as their wallpaper. To do this, right-click the image you want to set as your wallpaper, and then select Set as Background from the drop-down menu. If you are sure that you want to set the image as the background, click Yes.

**How to save an Internet picture as the desktop wallpaper**

Use a full roll of paper as a guide to lay out the room. Butt a roll into the corner where you plan to start, and make a pencil mark on the wall at the edge of the roll. Slide the roll down to that mark, and make another pencil mark at the other edge of the roll. Keep doing this until you know where every seam is going to fall.

**How to Install Wallpaper (DIY) | Family Handyman**

Once you're in customization mode, you can press the X button to bring up your inventory and select the wallpaper or rugs you want to display. If they're already in your storage, you can press...
