Fill your 5-gallon brew kettle with 2.5 gallons of water. As you heat your water, steep your grains for 20 minutes, or until your water reaches 170 degrees. When you remove your grains, let the water drip out of the grain bag and into the kettle.

**How to Make Beer in 4 Basic Steps—Homebrewing 101 for**...

How To Brew: Everything You Need to Know to Brew Great Beer Every Time is the perfect book for anyone interested in making beer at home. The book starts out detailing the most important thing for aspiring brewers, it answers the question about what to take in order to make a basic beer and the steps to succeed at it.

**How to Brew: Everything You Need to Know to Brew Beer**...

Add the malt extract and bring everything to a boil. The hops are usually added at various intervals to add flavor, bitterness, or aroma and the times will be spelled out for you in the kit's instructions for your style of beer. In general, hops added early in the boil will contribute more bitterness, but at the expense of flavor and aroma.
