2019 for building 5 to 8 high-quality backlinks every single month to any site in any niche from high authority sites that don't sell links or accept guest posts, and how you too can start doing the same - totally white hat - in minutes. After tracking more than 3,605,384 real backlinks to 535 of the world's biggest website, here's exactly what I learned (my new research). My Promises: Even if you have been involved in SEO for years, and read every article out there, you will learn things in this book you have never done or thought of before - things I've never seen anyone blog or talk about

SEO

which are completely legitimate. I guarantee that you will be able to take and start implementing these strategies today, and that I will show you real links from real people - links that I did not pay for, that I have picked up from people I did not know, and exactly how I got them. I understand that's a bold claim and you're probably skeptical, but I'm not selling my best SEO book to teach generic stuff or just to make money. I'm just trying to do you a favor. Specifically, here's what I'll cover: **Secrete #1: Why terrible articles on terrible sites constantly pick up links**

**on autopilot from hugely popular sites (and how you can have the same happen to you).
Secrete #2: The "date hack" which lets you see exactly what the most important pages are on your competitor's website.
Secrete #3: A specific article you can write that people will link to and share (works in almost every niche) even if they don't like you. Secrete #4: A hack to finding the best links in your niche that actually help you rank. I spent thousands of dollars to take advantage of this. YOU don't have to. This is one of the best things you will ever see in SEO. Secrete #5: How to scale personal outreach**

**in a way that doesn't make you look spammy (with real world links I've picked up recently).
Secrete #6: A proven tactic I've used to pick up links in hours, that's replicable and available 24/5. This book is not entirely selfless. Put simply, I'm hoping to reach more of my dream clients. I'm looking to reach the 0.01% of businesses who are or plan to be one of the top 10 businesses in their space in terms of online traffic and revenue. At the end of this book (after I've kept all of my promises) I'll share some of the big companies I work with - some you will likely recognize - and the kind of companies**

I'm looking to help. I'm by no means desperate for clients. In the last three months, I've done work for five 7 and 8 figure businesses (and six more who are close to it). The crux of this book is this: You are a few clicks away from being flooded with new attention, links and sales, even if you're just starting out, or you're in a really obscure niche. I've found a proven process that turns those awful emails that make you look desperate (and rarely work) to actually picking up links with predictable frequency, every single month. I'm proud to tell you that what you're about to

learn in this book is about two years early at most. They are tricks I don't believe 99.9% of SEOs are acting on (especially secrets #4 and #6). Now let's go!

The revolutionary guide that challenged businesses around the world to stop selling to their buyers and start answering their questions to get results; revised and updated to address new technology, trends, the continuous evolution of the digital consumer, and much more In today's digital age, the traditional sales funnel—marketing at the top, sales in the middle, customer

service at the bottom—is no longer effective. To be successful, businesses must obsess over the questions, concerns, and problems their buyers have, and address them as honestly and as thoroughly as possible. Every day, buyers turn to search engines to ask billions of questions. Having the answers they need can attract thousands of potential buyers to your company—but only if your content strategy puts your answers at the top of those search results. It's a simple and powerful equation that produces growth and success: They Ask, You Answer. Using these principles, author

Marcus Sheridan led his struggling pool company from the bleak depths of the housing crash of 2008 to become one of the largest pool installers in the United States. Discover how his proven strategy can work for your business and master the principles of inbound and content marketing that have empowered thousands of companies to achieve exceptional growth. They Ask, You Answer is a straightforward guide filled with practical tactics and insights for transforming your marketing strategy. This new edition has been fully revised

and updated to reflect the evolution of content marketing and the increasing demands of today's internet-savvy buyers. New chapters explore the impact of technology, conversational marketing, the essential elements every business website should possess, the rise of video, and new stories from companies that have achieved remarkable results with They Ask, You Answer. Upon reading this book, you will know: How to build trust with buyers through content and video. How to turn your web presence into a magnet for qualified buyers. What works and what

doesn't through new case studies, featuring real-world results from companies that have embraced these principles. Why you need to think of your business as a media company, instead of relying on more traditional (and ineffective) ways of advertising and marketing. How to achieve buy-in at your company and truly embrace a culture of content and video. How to transform your current customer base into loyal brand advocates for your company. They Ask, You Answer is a must-have resource for companies that want a fresh approach to marketing and

sales that is proven to generate more traffic, leads, and sales.

In my very first publication, Local SEO - A Roadmap To Successful Local Ranking I am going to walk you through some of the best Local SEO techniques to get a business not only discovered locally, but ranked. These are typically called Page and Domain Authority. The higher the authority the higher the page will rank. Google and other search engines determine a pages rank or authority based on various search metrics including content, keywords, number of backlinks, age of the website, title, header tags, images and so on. During that time I also became interested in all things SEO, but never really got to flex my muscles. It wasn't until 2016 that I found myself unemployed and wondering what I should do in life. In writing the articles I really had to understand the subjects I was writing about and how to use the techniques to get the best results.
