Using Voicemail Pro in Intuity Mode Page 11 IP Office 9.0 15-601066 Issue 9a (Tuesday, September 10, 2013) Logging in to Your Mailbox: Logging in for the First Time 2.2 Logging in After the First Time If you have already logged in once and recorded your name and set a password, you need only enter your mailbox number and the password.

IP Office 9 - Sunrise Solutions

When a new message is delivered to a user mailbox, Voicemail Pro calls at the phone number configured by the user and plays the prompt "<User name>, you have new messages. To access your messages, please enter your extension number and press hash. To avoid further notification of these messages, press *#". If the user takes an action that is different from the prompted action, Voicemail Pro processes the outcalling notification attempt as unanswered.

Outcalling - IP Office Knowledgebase

Introduction. This post covers the default usernames and passwords used by the Avaya IP Office system. With the release of R9.1, there were a lot of changes focusing around security and not leaving passwords as default or too weak, but below is the list, just in case you need to ever carry out a Security Reset or are working on a brand new system.
