Java The Complete Reference, 8th Edition - Herbert Schildt ...

Provides the management interfaces for monitoring and management of the Java virtual machine and other components in the Java runtime. java.lang.ref Provides reference-object classes, which support a limited degree of interaction with the garbage collector.

Java Platform SE 7 - Oracle

The chapter on modules stands out as woefully inadequate and purely introductory. This is not acceptable in a book claiming to be a "complete reference" to the language. Modules are one of the largest and most complex additions to the Java language ever, but most of the topics on modules are at best, only introduced.

Java: The Complete Reference, Eleventh Edition: Schildt ...

Java: The Complete Reference, Eleventh Edition. The Definitive Java Programming Guide Fully updated for Java SE 11, Java: The Complete Reference, Eleventh Edition explains how to develop, compile, debug, and run Java programs. Java: The Complete Reference, Tenth Edition: Edition 10 ...

This is one of the best Java language books I have bought that gives a complete reference of the language. It is great for the beginner, and all the way to advanced for people that need to learn the language for the first time, or just refresh. It's fairly easy to understand, and is great for anyone interested in coding in the Java language.
