In most cases, it suffices to simply provide suitable attribution, in the source code and documentation of your program, with a comment like the following: // This code is from the book JavaScript: The Definitive Guide, 6th Edition, // (ISBN #978-0596805524).

Examples from JavaScript: The Definitive Guide, 6th Edition

Like many interpreted languages, JavaScript has the ability to interpret strings of JavaScript source code, evaluating them to produce a value. JavaScript does this with the global function eval(): eval("3+2") // => 5. Dynamic evaluation of strings of source code is a powerful language feature that is almost never necessary in practice.
