Damascus Station Summary of the Kremlin's Candidate by Jason Matthews: Conversation Starters Ethnographic Explorations of Aging and Migration From the legendary #1 New York Times bestselling author of Plum Island and Night Fall, Nelson DeMille ’ s blistering new novel features an exciting new character—US Army combat veteran Daniel “ Mac ” MacCormick, now a charter boat captain, who is about to set sail on his most dangerous cruise. Daniel Graham MacCormick—Mac for short—seems to have a pretty good life. At age thirty-five he ’ s living in Key West, owner of a forty-two-foot charter fishing boat, The Maine. Mac served five years in the Army as an infantry officer with two tours in Afghanistan. He returned with the Silver Star, two Purple Hearts, scars that don ’ t tan, and a boat with a big bank loan. Truth be told, Mac ’ s finances are more than a little shaky. One day, Mac is sitting in the famous Green Parrot Bar in Key West, contemplating his life, and waiting for Carlos, a hotshot Miami lawyer heavily involved with anti-Castro groups. Carlos wants to hire Mac and The Maine for a ten-day fishing tournament to Cuba at the standard rate, but Mac suspects there is more to this and turns it down. The price then goes up to two million dollars, and Mac agrees to hear the deal, and meet Carlos ’ s clients—a beautiful Cuban-American woman named Sara Ortega, and a mysterious older Cuban exile, Eduardo Valazquez. What Mac learns is that there is sixty million American dollars hidden in Cuba by Sara ’ s grandfather when he fled Castro ’ s revolution. With the “ Cuban thaw ” underway between Havana and Washington, Carlos, Eduardo, and Sara know it ’ s only a matter of time before someone finds the stash—by accident or on purpose. And Mac knows if he accepts this job, he ’ ll walk away rich...or not at all. Brilliantly written, with his signature humor, fascinating authenticity from his research trip to Cuba, and heart-pounding pace, Nelson DeMille is a true master of the genre.

J. C. Carleson’s presentation of years of spy tradecraft will make you a more effective force within your organization.” —James Childers, CEO, ASG Global, Inc. When J. C. Carleson left the corporate world to join the CIA, she expected an adventure, and she found it. Her assignments included work in Iraq as part of a weapons of mass destruction search team, travels throughout Afghanistan, and clandestine encounters with foreign agents around the globe. What she didn’t expect was that the skills she acquired from the CIA would be directly applicable to the private sector. It turns out that corporate America can learn a lot from spies—not only how to respond to crises but also how to achieve operational excellence. Carleson found that the CIA gave her an increased understanding of human nature, new techniques for eliciting information, and improved awareness of potential security problems, adding up to a powerful edge in business. Using real examples from her experiences, Carle-son explains how working like a spy can teach you the principles of: Targeting—figuring out who you need to know and how to get to them Elicitation—a subtle way to get the answers you need without even asking a question Counterintelligence—how to determine if your organization is unwittingly leaking information Screening—CIA recruiters’ methods for finding and hiring the right people The methods developed by the CIA are all about getting what you want from other people. In a business context, these techniques apply to seeking a new job, a promotion, a big sale, an advantageous regulatory ruling, and countless other situations. As Carleson writes, “In a world where information has a price, it pays to be vigilant.” Her book will show you how.

Originally published in 1964, this is the "enthralling...truly remarkable" (The New York Times Book Review) insider account of the Cold War spy exchange that is now the subject of the major motion picture Bridge of Spies by Steven Spielberg starring Tom Hanks—with a new foreword by Jason Matthews, New York Times bestselling author of Red Sparrow and Palace of Treason. In the early morning of February 10, 1962, James B. Donovan began his walk toward the center of the Glenicke Bridge, the famous "Bridge of Spies" which then linked West Berlin to East. With him, walked Rudolf Ivanovich Abel, master spy and for years the chief of Soviet espionage in the United States. Approaching them from the other side, under equally heavy guard, was Francis Gary Powers, the American U-2 spy plane pilot famously shot down by the Soviets, whose exchange for Abel Donovan had negotiated. These were the strangers on a bridge, men of East and West, representatives of two opposed worlds meeting in a moment of high drama. Abel was the most gifted, the most mysterious, the most effective spy in his time. His trial, which began in a Brooklyn United States District Court and ended in the Supreme Court of the United States, chillingly revealed the methods and successes of Soviet espionage. No one was better equipped to tell the whole absorbing history than James B. Donovan, who was appointed to defend one of his country's enemies and did so with scrupulous skill. In Strangers on a Bridge, the lead prosecutor in the Nuremberg Trials offers a clear-eyed and fast-paced memoir that is part procedural drama, part dark character study and reads like a noirish espionage thriller. From the first interview with Abel to the exchange on the bridge in Berlin—and featuring unseen photographs of Donovan and Abel as well as trial notes and sketches drawn from Abel's prison cell—here is an important historical narrative that is “as fascinating as it is exciting” (The Houston Chronicle).

ONE DEAD-END POSTING. ONE DEAD BODY. A TRAGIC ACCIDENT? THAT'S WHAT THEY WANT YOU TO THINK... Constable Paul 'Hirsch' Hirschhausen is a whistle-blower. Formerly a promising metropolitan detective, now hated and despised, he's been exiled to a one-cop station in South Australia's wheatbelt. So when he heads up Bitter Wash Road to investigate gunfire and finds himself cut off without backup, there are two possibilities. Either he's found the fugitive killers thought to be in the area. Or his 'backup' is about to put a bullet in him. He's wrong on both counts. But Tiverton - with its stagnant economy, entrenched racism and rural isolation - has more crime than one constable can handle. And when the next call-out takes him to the body of a sixteen-year-old girl, it's clear that whether or not Hirsch finds her killer, his past may well catch up with him. Winner of the German Crime Prize, this new novel from Ned Kelly Lifetime Achievement Award-winner Garry Disher is perfect for readers of Jane Harper, Chris Hammer and Dervla McTiernan.

World-wide migration has an unsettling effect on social structures, especially on aging populations and eldercare. This volume investigates how taken-for-granted roles are challenged, intergenerational relationships transformed, economic ties recalibrated, technological innovations utilized, and spiritual relations pursued and desired, and asks what it means to care at a distance and to age abroad. What it does show is that trans-nationalization of care produces unprecedented convergences of people, objects and spaces that challenge our assumptions about the who, how, and where of care. Loss of Memory Is Only Temporary House of Cards Complete Trilogy The History of Fly Fishing in Fifty Flies The Wild Inside

Conversation Starters for Jason Matthews's The Kremlin's Candidate A funny, fresh, and brilliantly insightful collection of stories from a beloved writer, with a new introduction by Francine Prose Johanna Kaplan's beautifully written stories first burst on the literary scene in the late 1960s and early 1970s. Today they have retained all of their depth, surprise, and humor—their simultaneously scathing, hilarious, and compassionate insight into character and behavior. From Miriam, home from school with the measles, to Louise, the daughter of a family that fled Vienna for the Dominican Republic, to Naomi, a young psychiatrist, her heroines are fierce, tender, funny, and cuttngly smart. At once specific to a particular period, place, and milieu—mainly, Jewish New York in the decades after World War II—Kaplan's stories resonate with universal significance. In this new collection, which includes both early and later stories, unforgettably vivid characters are captured in all of their forceful presence and singularity, their foolishness and their wisdom, their venality and their nobility, while, hovering in the background, the inexorable passage of time and the unending pull of memory render silent judgment. In its pitch-perfect command of dialogue matched with interwoven subtleties of insight and feeling and a masterful control of language, Loss of Memory Is Only Temporary is itself a timeless collection of the finest work by one of the most extraordinary talents of our age.

When the Moscow Station is left in ruins after a major intelligence breach, CIA analyst Jonathan Burke and agent Kyra Stryker are fast on the trail of Alden Maines, an upper-level CIA officer whose defection coincides with the murder of the director of Russia's Foundation for Advanced Nuclear Research. Decorated CIA analyst Mark Henshaw continues the authentic, compelling, and revealing (Jason Matthews) Red Cell series following agent Kyra Stryker who must work with retired analyst Jonathan Burke to save the CIA from being torn apart by a conspiracy of moles. New Red Cell Chief Kyra Stryker has barely settled into the job when an attack on an Israeli port throws the Middle East into chaos. The Mossad/Israelis feared intelligence service responds with a campaign of covert sabotage and assassination, determined to protect the homeland. But evidence quickly turns up suggesting that a group of moles inside Langley are helping Mossad wage its covert war. Convinced that Mossad has heavily penetrated the CIA's leadership, the FBI launches a counterintelligence investigation that threatens to cripple the Agency and anyone who questions the official story is suspect. With few officials willing to help for fear of getting accused, Kyra turns to her former mentors—now-retired Red Cell Chief Jonathan Burke and his wife, former CIA Director Kathryn Cooke—to help uncover who is trying to tear the CIA apart from the inside out.

In 1945 Istanbul, American undercover agent Leon Bauer's attempt to save a life leads to a desperate manhunt, a game of shifting loyalties, and an unexpected love affair. "...quite an inventive story." "...before you know it, you can't put the book down." "...one of those rare books, light enough on the surface to be a fun summer read, but deep enough to keep you thinking about it long after you've turned the last page." "I can honestly say I didn't want it to end." What if you could create a universe: a miniature self-enclosed universe? Imagine having probing cameras that could focus to any star or planet looking for life. And once you found life, what if you could accelerate time and watch it evolve? What might you find? These are not the questions Jon Gruber challenges as he pedals to his next carpentry job. Over thirty and unmarried, he doesn't even own a car. But a new assignment challenges him to rethink his place in the world. Is he a loser? Or is he about to become a partner in an experiment of phenomenal discovery? Webster Adams, astronomer, inventor, and Jon's latest client, performs such an experiment. To Webster's amazement, he finds planets and cultures beyond his wildest dreams. His little universe turns into a discovery machine—an overnight goldmine. He and his crew observe societies so far past them on levels of technology and spirituality, that the world will be forever changed. Webster's lovely daughter, Whitney, also overwhelms Jon. She opens his eyes to the deeper meanings within the experiment by finding the most advanced beings within the project—the spirit guides from Theta 7. The Little Universe is a mind expanding concept. For Webster Adams, one question immediately comes to light. "If I can create a universe," he wonders, "then who created ours?" Can it be proven that some form of God exists? Or is life random and free-flowing without purpose? Along with Jon, you, the reader, will be presented a new perspective on life and your role in the great mystery of the universe.
