~~Leadership Roles and Management Functions in Nursing ...~~

Both management and leadership are functional processes but leadership is never a role. Thus we need to shift our focus to what management skills it takes to run a large company.

Leadership is an occasional act, an influence process. CEOs only show leadership occasionally, specifically when they influence people to think or act differently.

Leadership is the ability to build up confidence and zeal among people and to create an urge in them to be led. To be a successful leader, a manager must possess the qualities of foresight, drive, initiative, self-confidence and personal integrity. Different situations may demand different types of leadership.
