It was an age of fascinating leaders and difficult choices, of grand ideas eloquently expressed and of epic conflicts bitterly fought. Now comes a brilliant portrait of the American

Revolution, one that is compelling in its prose, fascinating in its details, and provocative in its fresh interpretations. In *A Leap in the Dark*, John Ferling offers a magisterial new history that surges from the first rumblings of colonial protest to the volcanic election of 1800. Ferling's swift-moving narrative teems with fascinating details. We see Benjamin Franklin trying to decide if his loyalty was to Great Britain or to America, and we meet George Washington when he was a shrewd planter-businessman who discovered personal economic advantages to American independence. We

encounter those who supported the war against Great Britain in 1776, but opposed independence because it was a "leap in the dark." Following the war, we hear talk in the North of secession from the United States. The author offers a gripping account of the most dramatic events of our history, showing just how closely fought were the struggle for independence, the adoption of the Constitution, and the later battle between Federalists and Democratic-Republicans. Yet, without slowing the flow of events, he has also produced a landmark study of leadership and ideas. Here is all the erratic brilliance of Hamilton and

Jefferson battling to shape the new nation, and here too is the passion and political shrewdness of revolutionaries, such as Samuel Adams and Patrick Henry, and their Loyalist counterparts, Joseph Galloway and Thomas Hutchinson. Here as well are activists who are not so well known today, men like Abraham Yates, who battled for democratic change, and Theodore Sedgwick, who fought to preserve the political and social system of the colonial past. Ferling shows that throughout this period the epic political battles often resembled today's politics and the politicians--the founders--played

a political hardball attendant with enmities, selfish motivations, and bitterness. The political stakes, this book demonstrates, were extraordinary: first to secure independence, then to determine the meaning of the American Revolution. John Ferling has shown himself to be an insightful historian of our Revolution, and an unusually skillful writer. A Leap in the Dark is his masterpiece, work that provokes, enlightens, and entertains in full measure. Ditch Your Job, Start Your Own Business and Set Yourself Free

Winner of the Pulitzer Prize for Poetry and the T.S. Eliot Poetry Prize Stag's Leap, Sharon Olds' stunningly poignant new sequence of poems, tells the story of a divorce, embracing strands of love, sex, sorrow, memory, and new freedom. In this wise and intimate telling - which carries us through the seasons when her marriage was ending - Sharon Olds opens her heart to the reader, sharing the feeling of invisibility that comes when we are no longer standing in love's sight; the surprising physical passion that still exists between a couple during parting; the loss of everything from her husband's smile to

the set of his hip. Olds is naked before us, curious and brave and even generous toward the man who was her mate for thirty years and now loves another woman. As she writes in the remarkable title poem, 'When anyone escapes, my heart / leaps up. Even when it's I who am escaped from, / I am half on the side of the leaver'. Olds' propulsive poetic line and the magic of her imagery are as lively as ever, and there is a new range to the music - sometimes headlong, sometimes contemplative and deep. Her unsparing approach to both pain and love makes this one of the finest, most powerful books of poetry Olds has yet given us.

(GSE) structures LEAP's learning goals to give learners a clear idea of the language objectives they should aim to meet. Each chapter in the book focuses on engaging themes drawn from science, technology, engineering, and mathematics (STEM), as well as education and business fields. Each chapter includes three readings related to the chapter theme, often with divergent perspectives. Most of these readings are authentic and give learners a chance to apply their critical thinking skills. The writing component involves different types of paragraphs and other forms, including essays. Beyond the book, My eLab exercises and documents give learners the opportunity to reinforce and build on what they learn.

A LEAP OF FAITH

It Takes a Leap

How to Thrive in a World Where
Everything Can Be Copied

Leap 1A

One year ago, a remarkable breakthrough changed what it means to be human. Now from a new research center in Puerto Rico, Alison Shaw and her team are about to stun the world, again. Less than a thousand miles away, a mysterious ship is spotted off the quiet coast of Guyana. Strange circumstances attract the attention of the U.S. Navy, including naval investigators John Clay and Steve Caesare. They soon find that a Chinese crew is making

mysterious trips into the jungle under the cover of darkness. Someone has made a surprising discovery beneath the shrouded canopies of South America. One that will change everything. As they race to piece the puzzle together, Clay and Caesare begin to uncover a string of secrets with frightening consequences. The discovery of the century has been made ... and someone is prepared to fight for it.

[?] New edition! Begin your journey into an all-consuming love of unimaginable heartache, sacrifice, and redemption. Cole Danforth was a troubled kid with a bad reputation. When I was nine years old, he rescued me

from bullies trying to steal my Halloween candy. Thus began my decade-long crush on him. Now, the summer after my freshman year in college, I discover the boy has turned into a gorgeous man who makes me melt. Every part of me wants him -- my heart, my mind, my body. But Cole, struggling with the burden of his past, refuses to accept how good we are together. I believe in us hard enough to take the chance. But will Cole take the leap of faith with me? This prequel novella takes place ten years before If We Fall. The reading order of the WHAT IF series is: IF WE LEAP IF WE FALL IF WE FLY

????? "Captivating and spectacular." A confounding case in the present. A precipitous puzzle from the past... Inspector David Graham knows all about history. After moving to the island of Jersey to recover from a tragic loss, he has done his best to leave painful memories behind. But sometimes it is not so easy to forget... When Mia, a promising young actress, turns up dead beneath the jagged cliffs known as Sampson's Leap, suicide seems the obvious answer. But after Inspector Graham interviews the victim's conniving clan of associates, he's not so sure. Jealousy, greed, drugs...

With friends like these, who needs enemies? Mia's mysterious death also shines a light on a far older case... The murder of three women, nearly two centuries ago. New evidence suggests that investigative rigor may not have been applied. Can the dogged Inspector uncover the truth of Mia's fate? Can a historical injustice be laid to rest? And can Graham finally reveal the secrets hiding in his own heart to the woman who knows him best...? Mystery fans will love The Case of Sampson's Leap. This deliciously clever whodunnit is filled with fiendish puzzles, tantalizing twists, and quirky characters you'll grow to

love. This is the eighth book in this best-selling traditional British detective mystery series with a modern twist. "The writing is so descriptive that I just feel like I'm there." Praise for the Inspector David Graham mystery series: "This is the best Inspector Graham mystery. Brilliant." "Such a wonderful story." "Riveting!" Only July 20, 1969, as Americans sat glued to their televisions and radios, Neil Armstrong and Buzz Aldrin did the seemingly

impossible--something humans had dreamed of doing for centuries:

They traveled 240,000 miles through space and set foot on the moon. One small step for man; one giant leap for mankind. This achievement not only brought the moon within reach, but now everything seemed possible. If it could be imagined, it could be done.

Pathways: Listening, Speaking, and Critical Thinking Foundations

Natalie's passion is dance, and she's looking forward to a summer of perfecting her technique at dance camp. Plus, she's just turned fifteen -- a momentous age that means she's now officially a grown-up. But while her mom doesn't seem to have got the memo, Kevin, her best friend

Sasha's older brother, has. Caught up with the excitement of Kevin's attention, their relationship quickly becomes intimate and all-consuming. Over the summer, Natalie goes from being in love and lust with Kevin to realizing that he is not the guy she thought he was. The worst is that she may have lost her friendship with Sasha. When Natalie turns to her single mom for advice, she gets a shock. Her mom has fallen in love with a woman. Losing her virginity, dealing with her new understanding of her mother, and trying to re-negotiate her friendships, Natalie turns to dancing as the only certain

thing in a life full of questions. When a new teacher introduces her to modern dance, she gains confidence and a new sense of herself. Girls will be drawn to Leap's frank discussion of first love, first times -- sex, drinking, break-ups -- and the struggle between doing what feels right and doing things to please others.

Linguists routinely emphasise the primacy of speech over writing. Yet, most linguists have analysed spoken language, as well as language in general, applying theories and methods that are best suited for written language.

Accordingly, there is an extensive 'written language bias' in traditional and present day linguistics and other language sciences. In this book, this point is argued with rich and convincing evidence from virtually all fields of linguistics.

Every business faces the existential threat of competitors producing cheaper copies. Even patent filings, market dominance and financial resources can't shield them from copycats. So what can we do -- and, what can we learn from companies that have endured and even prospered for centuries despite copycat competition? In a book of narrative history and practical strategy, IMD professor of management and innovation Howard Yu shows that

succeeding in today's marketplace is no longer just a matter of mastering copycat tactics, companies also need to leap across knowledge disciplines, and to reimagine how a product is made or a service is delivered. This proven tactic can protect a company from being overtaken by new (and often foreign) copycat competitors. Using riveting case studies of successful leaps and tragic falls, Yu illustrates five principles to success that span a wide range of industries, countries, and eras. Learn about how P&G in the 19th century made the leap from handcrafted soaps and candles to mass production of its signature brand Ivory, leaped into the new fields of consumer psychology and advertising, then leaped again, at the risk of cannibalizing its core product, into synthetic detergents and won with

Tide in 1946. Learn about how Novartis and other pharma pioneers stayed ahead by making leaps from chemistry to microbiology to genomics in drug discovery; and how forward-thinking companies, including China's largest social media app -- WeChat, Tokyo-based Internet service provider Recruit Holdings, and Illinois-headquartered John Deere are leaping ahead by leveraging the emergence of ubiquitous connectivity, the inexorable rise of intelligent machines, and the rising importance of managerial creativity. The life of the salmon is a predictable one: swimming upstream to the place of its birth to spawn, and then to die.

This is the story of a salmon whose silver scales mark him out as different – who dares to leap beyond his fate.

It's a story about growing up, and about aching and ardent love. For swimming upstream means pursuing something the salmon cannot see: a dream. Translated for the first time into English, *The Salmon Who Dared To Leap Higher* is a wise, tender and inspiring modern fable about finding freedom and a harmony with nature we have either forgotten or lost in the binding realities of life.
