Manual Transmission Service Interval

Generally, if you have a manual transmission, plan to change the transmission fluid between 30,000 and 60,000 miles. That said, a vehicle under heavy strain (like a truck used to tow a boat or trailer) should have its manual transmission fluid changed at more frequent intervals.

~~Manual Transmission Service Interval~~

Manual: Most manufacturers recommend that manual transmission fluid be

The maintenance intervals in this manual are provided with the assumption that you, not the dealer, will be carrying out the work. These are the minimum intervals recommended by us for vehicles driven daily. If you wish to keep your vehicle in peak condition at all times, you may wish to perform some of these procedures more often.
