Workshop Manual for Morris-Austin Mini, Including Mini Cooper, Cooper 'S' 1961 - Onwards

Particularly famous for their great adventures in the Monte Carlo rally, works Minis humbled many bigger and more powerful cars during the 1960s and 1970s. Mechanic Brian Moylan spent 22 years in the workshops of the BMC Competitions Department where the works cars were built. Here, all the secrets of how ordinary production line Mini Coopers were converted into the mighty giant-killing Minis of motorsport are revealed in full. Contributions from 'Ginger' Devlin & 'Jumping Jeff' Williamson reveal in detail the modifications to the works racing and rallycross cars respectively. " ... invaluable to anyone restoring a period car ... good stuff if you're into nuts and bolts, and top value." – Classic

Including step-by-step instructions for carrying out servicing and maintenance work, this book includes hints, tips and valuable short-cuts that can help make car maintenance easier. If you own one of these fabulous cars then you know how fun it is to drive. And, you probably know that your MINI is packed with some of BMW's latest automotive technology. But if you want to maintain and repair your car yourself (or just want to understand what's going on under the bonnet), you'll be wanting the MINI Cooper, Cooper S 2002-2004 Service Manual by Bentley Publishers. This is the only comprehensive, single source of service information and specifications available for MINI models from 2002-2004. The aim throughout this manual has been simplicity, clarity and completeness, achieved through practical explanations, step-by-step procedures and accurate specifications. Whether you're a professional technician or a do-it-yourself MINI owner, this manual will help you understand, care for and repair your car. Bentley Publishers' new MINI service and repair manual is based on factory information, but is heavily supplemented by hands-on experience and illustrations. The service manual editorial team has disassembled and photographed several MINI models for this project in the Bentley Service Information Research Center.
