**"Beating them All!" is a universal preparation manual that will assist test-takers across the country in beating any elementary reading instruction exam (National Evaluation Systems, Inc. (NES) exam). The strategies and methods presented in this text are research-based and will allow candidates the best opportunity to pass on their first attempt. Features: Universal, Comprehensive Preparation. The areas include "case studies, short answers, " and "multiple-choice questions." It will be an invaluable resource for students who want and need to pass NES exams. Sound Preparation Methods. The preparation methods in this manual have been field tested, refined, and re-tested with groups of real students facing these exams. It includes**

**repeatable attack-plans on time management. Effective Strategies. All of the defined strategies in "Beating them All!" have been field tested and refined to ensure effectiveness and ease in acquisition/application. Valid Content. The core reading-instruction content that is assessed on the RICA, and the other NES exams, has been identified and validated through separate explorations. Because NES exams share so much of this core content, it is essential for all candidates to know the material in "Beating them All!" in advance of taking any test. "The strengths of this text are in the area of analysis of various reading and writing components and test issues, which are seamlessly and brilliantly presented in a cogent and compelling manner. Use of advanced organizers makes a complex and often intimidating discipline approachable and comprehensible." Professor Carol Wareing, "Merrimack College" Author Bio: Dr. Chris Nicholas Boosalis received his Ph.D. in Curriculum and Instruction from Arizona State University in 1998. He is an Associate Professor of Teacher Education at California State University, Stanislaus where he teaches reading-instruction methods to elementary and secondary credential candidates.**

REA's TExES Core Subjects EC-6 (291) Test Prep with Online Practice Tests Gets You Certified and in the Classroom! Texas teacher candidates seeking a generalist certificate for early childhood and elementary school are required to take the TExES Core Subjects EC-6 (291) test. REA's all-new test prep offers extensive coverage of the five subject areas assessed on the Core Subjects EC-6 exam: \* English Language Arts and Reading & the Science of Teaching Reading (801) \* Mathematics (802) \* Social Studies (803) \* Science (804) \* Fine Arts, Health and Physical Education (805) The Core Subjects (291) test was

launched in January 2015; it replaced the TExES Generalist (191) test. Whether you are a traditional college student or a career-changing professional, REA's TExES Core Subjects EC-6 (291) with Online Practice Tests is designed to help you pass the test so you can get certified and start your teaching career. Written by a team of noted teaching experts led by award-winning Texas-based author Dr. Luis Rosado, this test prep is relevant, up-to-date, and practical. This is focused prep custom-built for the TExES Core Subjects exam EC-6, with the right blend of review and practice content. The book contains five targeted subject reviews that align with each Core Subjects subtest. To help set your study path and boost your confidence, we provide an online diagnostic test plus two full-length practice exams (one in the book and one online at the REA Study Center). Spanning more than 600 questions, the tests cover every domain and competency. In addition, computerized testing at the REA Study Center comes with automatic timing and scoring, as well as diagnostic feedback on every question to help you zero in on the topics that give you trouble now, so you can succeed on test day. REA's TExES Subjects EC-6 (291) is a must-have for anyone who wants to teach early childhood and elementary school.

**Are current testing practices consistent with the goals of the reform movement in school mathematics? If not, what are the alternatives? How can authentic performance in mathematics be assessed? These and similar questions about tests and their uses have forced those advocating change to examine the way in which mathematical performance data is gathered and used in American schools. This book provides recent views on the issues surrounding mathematics tests, such as the need for valid performance data, the implications of the Curriculum and Evaluation Standards for School Mathematics for test development, the identification of valid items and tests in terms of the Standards, the procedures now being used to construct a sample of state assessment tests, gender differences in test taking, and methods of reporting student achievement.**
