Nickajack Dam was built by TVA in the mid-1960's at Tennessee River mile 424.7 to replace the old and leaking Hales Bar Dam located 6.4 miles upstream. The Nickajack site is located in Marion County, Tennessee, 18 air miles west of Chattanooga and about 2 miles northwest of the junction of the Alabama-Georgia-Tennessee State lines. Historically, the ancient Indian town of Nickajack was located at Shellmound, about a mile and a half upstream from the dam on the left bank of the reservoir. Nickajack was inhabited by the Cherokees as early as 1730. In 1784 the warlike Chief Dragging Canoe, who had earlier broken with the Cherokees, launched his marauding Chickamaugas from the town and used the nearby Nickajack Cave as a hideout. Later, during the Civil War, saltpeter was mined in the cave for Confederate gunpowder.

Watauga, South Holston, Boone, and Fort Patrick Henry : a Comprehensive Report on the Planning, Design, Construction, Initial Operations, and Costs of Four Hydro Projects in the Holston Basin at the Eastern Tip of Tennessee : Improvement of the Minor Wilbur Project in the Same Area Included as an Appendix

The development from inception through initial operation of four major TVA water control projects in the upper or northeastern part of the Tennessee Valley - Watauga, South Holston, Boone, and Fort Patrick Henry, collectively designated Upper Holston - is presented in this technical report, The Upper Holston Projects. Improvement of the minor Wilbur project immediately below Watauga is included as an appendix. The manuscript was compiled from basic planning, design, construction and other development of the projects and comprises a record of the more important facts concerning the planning, design, construction, costs, and initial operations of these projects by the TVA.

Kingston Steam Plant is located at the base of a peninsula formed by the Clinch and Emory River embayments of Watts Bar Lake about 2.7 miles above the confluence of the Clinch and Tennessee Rivers. The plant derives its name from Kingston, a small town of colorful history lying two miles to the south, which employs the distinction of being the capital of the State of Tennessee for one day, September 21, 1807.
