

Robert Frost After Apple Picking Analysis

Mountain Interval (1916) is a collection of poems by American poet Robert Frost. Having gained success with his first two collections, both published in London, Frost returned home to New Hampshire and completed his third volume, *Mountain Interval*. The book opens with "The Road Not Taken," and though this would become Frost's most famous poem, the collection is not defined by it. Here we find the hallmarks of Frost's work: rural landscapes, dramatic monologues, and subtle meditations on the meanings of life and art. This is Frost at the height of his power, a poetry that speaks as much and as often as it listens. "The Road Not Taken" is a meditation on fate and free will that follows a traveler in an autumn landscape, unsure of which path to take, but certain he cannot stand still. Often summarized using only its final two lines—"I took the one less traveled by, / And that has made all the difference"—Frost's poem refuses such neat categorization. Far from simple praise of independence, "The Road Not Taken" examines the anxiety of choice, the psychic response to the uncertainty that precedes even the simplest decision. In "Birches," Frost recalls his childhood fondness for climbing trees, raising himself from the ground "To the top branches," only to fling himself "outward, feet first" back to earth. Against the backdrop of adulthood, in which "life is too much like a pathless wood," the poet recalls the simplicity and wonder of being a child in nature, no more and no less than "a swinger of birches.". With a beautifully designed cover and professionally typeset manuscript, this edition of Robert Frost's *Mountain Interval* is a classic of American literature reimagined for modern readers.

"A poem is best read in the light of all the other poems ever written." So said Robert Frost in instructing readers on how to achieve poetic literacy. George Monteiro's newest book follows that dictum to enhance our understanding of Frost's most valuable poems by demonstrating the ways in which they circulate among the constellations of great poems and essays of the New England Renaissance. Monteiro reads Frost's own poetry not against "all the other poems ever written" but in the light of poems and essays by his precursors, particularly Emerson, Thoreau, and Dickinson. Familiar poems such as "Mending Wall," "After Apple-Picking," "Birches," "Stopping by Woods on a Snowy Evening," "The Road Not Taken," and "Mowing," as well as lesser known poems such as "The Draft Horse," "The Ax-Helve," "The Bonfire," "Dust of Snow," "A Cabin in the Clearing," "The Cocoon," and "Pod of the Milkweed," are renewed by fresh and original readings that show why and how these poems pay tribute to their distinguished sources. Frost's insistence that Emerson and Thoreau were the giants of nineteenth-century American letters is confirmed by the many poems, variously influenced, that derive from them. His attitude toward Emily Dickinson, however, was more complex and sometimes less generous. In his twenties he molded his poetry after hers. But later, after he joined the faculty of Amherst College, he found her to be less a benefactor than a competitor. Monteiro tells a two-stranded tale of attraction, imitation, and homage countered by competition, denigration, and grudging acceptance of Dickinson's greatness as a woman poet. In a daring move, he composes—out of Frost's own words and phrases—the talk on Emily Dickinson that Frost was never invited to give. In showing how Frost's work converses with that of his predecessors, Monteiro gives us a new Frost whose poetry is seen as the culmination of an intensely felt New England literary experience.

"Over 125 poetic companions for all life's ups and downs. The Buddha once told a disciple that good spiritual friends are the whole of holy life. The poems expertly gathered here offer all that one might hope for in such spiritual friendship: wisdom, compassion, peacefulness, good humor, and the ability to both absorb and express the deepest human emotions of grief and joy. The Poetry of Impermanence, Mindfulness, and Joy offers a wide-ranging collection of 129 ancient and modern poems unlike any other anthology on bookshelves today. It uniquely places Buddhist poets like Han Shan, Tu Fu, Saigyō, Ryōkan, Bashō, Issa, and others alongside modern Western poets one would not expect to find in such a collection--poets like Wallace Stevens, Robert Frost, Elizabeth Bishop, William Stafford, Denise Levertov, Jack Gilbert, Ellen Bass, Billy Collins, and more. What these poems have in common, no matter whether they are explicitly Buddhist, is that all reflect the essential truths the Buddha articulated 2,500 years ago. The book provides an important poetic complement to the many prose books on mindfulness practice--the poems here both reflect and embody the dharma in ways that can't be matched by other modes of writing. Its unique features include an introduction that discusses the themes of impermanence, mindfulness, and joy and explores the relationship between them. Biographical notes place the poets in historical context and offer quotes and anecdotes to help readers learn about the poets' lives. A short essay at the back of the book on "Mindful Reading" helps readers approach the poems from an experiential, non-analytical perspective and illustrates the similarities between meditation and the mindful reading of poetry. Brehm also includes a guided meditation on sound that helps readers appreciate the sonic qualities of poetry and shows how the anthology might be used in ongoing spiritual practice"--

Robert Frost: The Ethics of Ambiguity examines Frost's ethical positioning as a poet in the age of modernism. The argument is that Frost constructs his poetry with deliberate formal ambiguity, withholding clear resolutions from the reader. Therefore, the poem itself functions as metaphor, inviting the reader into a participation in constructing meaning. Furthermore, the ambiguity of ethical positioning was intrinsic to Frost himself. Nonetheless, by holding his poetry up to several traditional ethical views -- Rationalist, Theological, Existentialist, Deontological, and Social Ethics -- one may define a congruent ethical pattern in both the poetry and the person.

Frost's early poems, selected by poet David Orr for the centennial of "The Road Not Taken" A Penguin Classics Deluxe edition For one hundred years, Robert Frost's "The Road Not Taken" has enchanted and challenged readers with its deceptively simple premise—a person reaches a fork in the road, facing a choice full of doubt and possibility. The Road Not Taken and Other Poems presents Frost's best-loved poem along with other works from his brilliant early years, including such poems as "After Apple-Picking," "The Oven Bird," and "Mending Wall." Award-winning poet and critic David Orr's introduction discusses why Frost remains so central (if often misunderstood) in American culture and how the beautiful intricacy of his poetry keeps inviting generation after generation to search for meaning in his work. To make sense of free verse" in theory or in practice, the whole study of prosody--the function of rhythm in poetry--must be revised and rethought. Stating this as the issue that poets and critics have faced in the past century, Charles Hartman takes up the challenge and develops a theory of prosody that includes the most characteristic forms of twentieth-century poetry. The work of American poet Robert Frost (1874-1963) aspired to be accessible and colloquial. Instead of looking to Europe for inspiration, as did some of his contemporaries, Frost aimed to develop an authentic voice, with the rhythms and vocabulary of everyday American speech.

Robert Frost, North of Boston, and the Drama of Disappearance

At the heart of this unusually accomplished and affecting first book of poetry is the idea of the hinge—the point of connection, of openings and closings. Maggie Dietz situates herself in the liminal present, bringing together past and future, dream and waking, death and life.

Formally exact, rigorous, and tough, these poems accept no easy answers or equations. Dietz creates a world alive with detail and populated with the everyday and strange: amusement-park horses named Virgil and Sisyphus, squirrels hanging over tree branches “like fish.” By turns humorous and pained, direct and mysterious, elegiac and elegant, the poems trace for us the journey and persistence of the spirit toward and through its “perennial fall”—both the season and the human condition. Cumulatively, the work moves toward a fragile transcendence, surrendering to difficulty, splendor, and strangeness. “In Perennial Fall, distinct, hard-edged images create a haunting counter-play of distortion, troubled insight or menace. The simultaneous clarity and shadow has the quality of a dream that can be neither forgotten nor settled. This is a spectacular debut and more than that—a wonderful book.”—Robert Pinsky

Frost's self-described "Christmas circular letter" encapsulates the wisdom of a Vermont farmer and the beauty of his country.

The work of hunters is another thing: I have come after them and made repair Where they have left not one stone on a stone, But they would have the rabbit out of hiding, To please the yelping dogs. The gaps I mean, No one has seen them made or heard them made, But at spring mending-time we find them there. I let my neighbour know beyond the hill; And on a day we meet to walk the line And set the wall between us once again. We keep the wall between us as we go. To each the boulders that have fallen to each. And some are loaves and some so nearly balls We have to use a spell to make them balance: "Stay where you are until our backs are turned!" We wear our fingers rough with handling them. Oh, just another kind of out-door game, One on a side. It comes to little more: There where it is we do not need the wall: He is all pine and I am apple orchard. My apple trees will never get across And eat the cones under his pines, I tell him.

The woods are lovely, dark and deep, But I have promises to keep, And miles to go before I sleep, And miles to go before I sleep. From the illustrator of the world's first picture book adaptation of Robert Frost's "The Road Not Taken" comes a new interpretation of another classic Frost poem: "Stopping By Woods on a Snowy Evening." Weaving a simple story of love, loss, and memories with only illustrations and Frost's iconic lines, this stirring picture book introduces young readers to timeless poetry in an unprecedented way.

The Work of Knowing : with a New Afterword

Often thought of as the quintessential poet of New England, Robert Frost is one of the most widely read American poets of the 20th century. But in spite of his ties to New England, he was born in San Francisco; he published his first book of poetry in England

rather than the United States; he matured as a poet during his years abroad; and upon his return to America, he sometimes taught at the University of Michigan and spent many of his winters in Florida. This reference book provides hundreds of alphabetically arranged entries on Frost's poems and illuminates the complexities of his life and writings. Entries are written by expert contributors and conclude with brief citations of additional sources of information. The volume includes a chronology and closes with a bibliography of major studies.
