

## Samu Haber Steckbrief News Bilder Gala De

A southern black community's struggle to defend itself against racist groups.

The series publishes important new editions of and commentaries on texts from Greco-Roman antiquity, especially annotated editions of texts surviving only in fragments. Due to its programmatically wide range the series provides an essential basis for the study of ancient literature.

A work of riveting literary journalism that explores the roots and repercussions of the infamous killing of Eric Garner by the New York City police—from the bestselling author of *The Divide* NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE WASHINGTON POST On July 17, 2014, a forty-three-year-old black man named Eric Garner died on a Staten Island sidewalk after a police officer put him in what has been described as an illegal chokehold during an arrest for selling bootleg cigarettes. The final moments of Garner ' s life were captured on video and seen by millions. His agonized last words, “ I can ' t breathe, ” became a rallying cry for the nascent Black Lives Matter protest movement. A grand jury ultimately declined to indict the officer who wrestled Garner to the pavement. Matt Taibbi ' s deeply reported retelling of these events liberates Eric Garner from the abstractions of newspaper accounts and lets us see the man in full—with all his flaws and contradictions intact. A husband and father with a complicated personal history, Garner was neither villain nor victim, but a fiercely proud individual determined to do the best he could for his family, bedeviled by bad

luck, and ultimately subdued by forces beyond his control. In America, no miscarriage of justice exists in isolation, of course, and in *I Can't Breathe* Taibbi also examines the conditions that made this tragedy possible. Featuring vivid vignettes of life on the street and inside our Kafkaesque court system, Taibbi's kaleidoscopic account illuminates issues around policing, mass incarceration, the underground economy, and racial disparity in law enforcement. No one emerges unsullied, from the conservative district attorney who half-heartedly prosecutes the case to the progressive mayor caught between the demands of outraged activists and the foot-dragging of recalcitrant police officials. A masterly narrative of urban America and a scathing indictment of the perverse incentives built into our penal system, *I Can't Breathe* drills down into the particulars of one case to confront us with the human cost of our broken approach to dispensing criminal justice. " Brilliant . . . Taibbi is unsparing in his excoriation of the system, police, and courts. . . . This is a necessary and riveting work. " —Booklist (starred review)

Isolation, terror, paranoia. Two guards in a luxury apartment block stick to their posts while the world collapses around them. 'A mix of psychological thriller and SF fable, this is a strange, wonderfully claustrophobic novel' John O'Connell, Guardian. (Guardian) Harry and Michel are stationed in the basement of a luxury apartment block, guarding the 1%. Until all the residents leave - apart from a man on floor 29. Harry and Michel stick to their posts. The world might be at war, plunged into nuclear winter or decimated by a disease; they may be the last inhabitants in the city. All they know is that if they are vigilant, 'the organisation' will reward them: promotion to an elite cadre of security officers remains their goal, and their days are punctuated by vivid dreams of everything they are missing. But what if there were no-one left to guard? And if the promised third officer arrives, how will he fit into Michel and Harry's studied routine of boredom and paranoia?

Describes the principles of eight core values including stewardship, services, intellectual freedom, and literarcy and learning; and discusses how libraries can adapt them in order to thrive in the twenty-first century.

***Sediment dynamics in fluvial systems is of great ecological, economic and human-health-related significance worldwide. Appropriate management strategies are therefore needed to limit maintenance costs as well as minimize potential hazards to the aquatic and adjacent environments. Human intervention, ranging from nutrient/pollutant release to physical modifications, has a large impact on sediment quantity and quality and thus on river morphology as well as on ecological functioning. Truly understanding sediment dynamics requires as a consequence a multidisciplinary approach. River Sedimentation contains the peer-reviewed scientific contributions presented at the 13th International Symposium on River Sedimentation (ISRS 2016, Stuttgart,***

**Germany, 19-22 September 2016), and includes recent accomplishments in theoretical developments, numerical modelling, experimental laboratory work, field investigations and monitoring as well as management methodologies. The book is divided into six topics: A - Integrated sediment management at the river basin scale B - Sediment transport C - River morphodynamics D - Hydromorphology meets ecology E - Reservoir sustainability F - Social, economic and political aspects of sediment management The book also includes five special topics: 1 - Hydropower and sediment management, 2 - Navigation and river morphology, 3 - Innovative measurement techniques, 4 - SEDITRANS - Sediment transport in fluvial, estuarine and coastal environment, 5 - Sustainable land management. The aforementioned subject areas will be of interest to academics, engineers and professionals. This year we celebrate the 150th anniversary of Mendeleev's first publication of the Periodic Table of Elements. This book offers an original viewpoint on the history of the Periodic Table: a collective volume with short illustrated papers on**

**women and their contribution to the building and the understanding of the Periodic Table and of the elements themselves. Few existing texts deal with women's contributions to the Periodic Table. A book on women's work will help make historical women chemists more visible, as well as shed light on the multifaceted character of the work on the chemical elements and their periodic relationships. Stories of female input, the editors believe, will contribute to the understanding of the nature of science, of collaboration as opposed to the traditional depiction of the lone genius. While the discovery of elements will be a natural part of this collective work, the editors aim to go beyond discovery histories. Stories of women contributors to the chemistry of the elements will also include understanding the concept of element, identifying properties, developing analytical methods, mapping the radioactive series, finding applications of elements, and the participation of women as audiences when new elements were presented at lectures. As for the selection of women, the chapters include pre-periodic table contributions as well as recent discoveries,**

***unknown stories as well as more famous ones. The main emphasis will be on work conducted in the late 19th century and early 20th century. Furthermore, the book includes elements from different groups in the periodic table, so as to represent a variety of chemical contexts.'As with the discoveries themselves, bringing these tales of female scientists to light has taken much teamwork, including by contributors Gisela Boeck, John Hudson, Claire Murray, Jessica Wade, Mary Mark Ockerbloom, Marelene Rayner-Canham, Geoffrey Rayner-Canham, Xavier Roqué, Matt Shindell and Ignacio Suay-Matallana. Tracing women in the history of chemistry unveils a fuller picture of all the people working on scientific discoveries, from unpaid assistants and technicians to leaders of great labs. In this celebratory year of the periodic table, it is crucial to recognize how it has been built — and continues to be shaped — by these individual efforts and broad collaborations.'Nature 565, 559-561 (2019)***  
***This collection focuses on the cultural history of the police as an institution from the sixteenth to the twentieth centuries.***

***Contrary to most studies on the law and the state, Police Forces demonstrates how profoundly modern democracies are enveloped by more informal and less codified modes of social control. In a time when the rule of law appears to be on the retreat, 'police studies' emerges as a field in its own right. This volume helps stake out this new discipline, including the intricate link between police and the law, 'might' and 'right,' state violence, surveillance technologies, politics and resistance. Police Forces considers the question of law and order from below: alleyways, borders, police stations, law offices, bureaucracies, and the minds of administrators, in which the quotidian workings of the law unfold.***

*The "Dictionary of German National Biography" is unique, complete and comprehensive with biographies of 60,000 people from the German-speaking world. It covers not only individuals from Germany but also from Austria, Switzerland and other countries where German is or used to be spoken. Coverage stretches all the way from the time of Charlemagne to the present day and includes lesser-known as well as world-famous Germans. In order to ensure that entries were as objective as possible, only individuals whose life and works have come to an end were included.*

*GlobalSoilMap: Basis of the global spatial soil information system contains contributions that were presented at the 1st GlobalSoilMap conference, held 7-9 October 2013 in Orléans, France. These contributions demonstrate the latest developments in the GlobalSoilMap project and digital soil mapping technology for which the ultimate aim is to produce a high resolution digital spatial soil information system of selected soil properties and their uncertainties for the entire world. GlobalSoilMap: Basis of the global spatial soil information system aims to stimulate capacity building and new incentives to develop full GlobalSoilMap products in all parts of the world.*

*A Naval pilot, a one night stand and years later a second chance, can they make it work this time? Pharmacological student, Ayanna Barker,*

*was working hard to give her and her son a good life. Sure, things were tight, but it was all worth it. The man who had given her her child has also given her the best night of her life...and she had never forgotten him. US Navy pilot Lieutenant Michael Taylor loved the rush his job gave him but even that took a back seat to how he felt about the lovely Ayanna Barker, but circumstances keep them apart. Four years later Michael sees her at a different military institution. Ayanna is more beautiful than his vivid memories had recalled her to be, but now she has a child...she has his child. Determined to be a part of her life, and his son's, Michael moves them into his home and marries her. Each day reawakened emotions burn hotter and hotter as they try and keep things under control. But can Michael and Ayanna realise what they share is so much more than just a marriage of convenience?*

Excerpt from *Discovery of Language: Linguistic Science in the Nineteenth Century*  
For the most part this work is a translation of Professor Pedersen's *Sprogvidenskaben i det Nittende Aarhundrede: Metoder og Resultater*, Copenhagen, Gyldendalske Boghandel, 1924, which appeared as Volume XV of *Det Nittende Aarhundrede*, an imposing series edited by Aage Friis and designed to present the cultural history of the nineteenth century in all its aspects. The relatively unimportant deviations from the original have been made either by the author or with his advice and consent. Scholarly works which have appeared since 1924, and are of such a nature as to affect the conclusions expressed in the original text, have been mentioned by the author in the translation; other changes include occasional amplification of a statement or the use of different examples. Word-forms thoroughly familiar to the Scandinavian reader might not be illuminating to the reader of an English translation, and therefore more appropriate examples have been selected in place of those on page 272, the first paragraph of page 273, and most of the first paragraph of page 274 of the Danish text. The way of the translator is hard, as any one knows who has gone that way; especially hard when a work of scholarly nature is involved, where extreme fidelity in translation is imperative. That way would not have been trod in the present instance if the translator had thought he saw in the original certain cardinal virtues which would make the book

desirable addition to the English literature of linguistics. The problems, as well as the accomplishments, of the study of linguistics during this most important of centuries are faithfully and clearly recorded. Before each step in advance is described, the need for this step is pointed out, so that we have not merely a recital of events, but a story which gives us a series of living pictures of these pioneering intellects actually at work wrestling with problems the solution of which constitutes one chapter of the most stirring history we know, the history of the achievements of the human spirit in winning new knowledge. In spite of the tremendous advance in knowledge of the past century and a quarter, the results have not been incorporated in our general culture. The average cultivated person today can be expected to know less than nothing of linguistics. About the Public Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

In the spring of 1945, Fuhrer and Reich Chancellor Adolf Hitler, President Edvard Benes, and Marshal Josip Broz Tito stood as examples of the complete rupture between the Germans and Austrians on the one hand, and the Czechs, Slovaks, Slovenes, Croats, Serbs, and Bosniaks on the other. The total break that occurred in World War II with war crimes, crimes against humanity, and even genocides (particularly against the Jews and "Gypsies") had a long pre-history, beginning with violent nationalist clashes in the Habsburg Monarchy during the revolutions of 1848/49. Therefore, this monograph - based on a broad range of international primary and secondary sources - explores the development of the political, legal, economic, social, and cultural "communities of conflict" within Austria-Hungary, especially in the Bohemian and South Slavic countries, the making of the Paris Peace Treaties in 1919/20 by violating President Wilson's principle of self-determination, particularly in drawing new borders and creating new economic units, and the perpetuated ethnic-national conflicts between Czechs and Germans, Slovaks and Magyars, Slovenes and Germans, Croats and Serbs as well as Serbs and Germans in the successor states, deepening the differences between the nations of East-Central Europe. Although many kings, presidents, chancellors, ministers, governors, diplomats, business tycoons, generals, Nazi-Gauleiter, higher SS and police leaders, and Communist functionaries have appeared as historical actors in

the 170 years of East-Central and Southeastern European history, Hitler, Benes, and Tito remain especially present in historical memory at the beginning of the twenty-first century.

Trayvon Martin's parents take readers beyond the news cycle with an account of what they could give: the intimate story of a tragically foreshortened life and the rise of the Black Lives Matter movement. "A reminder—not only of Trayvon's life and death but of the vulnerability of black lives in a country that still needs to be reminded they matter."—USA Today Now a docuseries on the Paramount Network produced by Shawn Carter Years after his tragic death, Trayvon Martin's name is still evoked every day. He has become a symbol of social justice activism, as has his hauntingly familiar image: the photo of a child still in the process of becoming a young man wearing a hoodie and gazing silently at the camera. But who was Trayvon Martin before he became, in death, an icon? And how did one black child's death on a dark, rainy street in a small Florida town become the match that lit a civil rights crusade? *Rest in Power*, told through the compelling alternating narratives of his parents, Sybrina Fulton and Tracy Martin, answers those questions from the most intimate of sources. The book takes us beyond the news cycle and familiar images to give the account that only his parents can offer: the story of the beautiful and complex child they lost, the cruel unresponsiveness of the police and the hostility

the legal system, and an inspiring journey from grief and pain to power, and from tragedy and senselessness to purpose.

*School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include:*

- types of school refusers*
- why children refuse to go to school*
- symptoms*
- short term and long term consequences*
- accurate assessment*
- treatment options*

*what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal*

*A study of the economic and social changes which shaped the movement for German unification. The author emphasizes the effect of industrialism on urban life, traces the decline of manorialism in agriculture and seeks to show that the political movements of these years were profoundly influenced by the economic transition from agrarianism to capitalism.*

A collection of studies in German literature presented to John T. Krumpelmann on his retirement from teaching at Louisiana State University in 1962. Essays written in English and German were contributed by friends of Professor Krumpelmann, including fellow students at Harvard, former colleagues and pupils, as well as associates in professional organizations.

This volume includes contributions presented at two conferences, in Mainz (Germany) and Jerusalem (Israel). The articles present a number of new discoveries of binding fragments in several European libraries and beyond.

The late German historian considers all forms and movements of human affairs as he predicts the inevitable eclipse of Western civilization, in an abridged edition of the classic study, first published more than eighty years ago. Reprint.

Women In Their Element: Selected Women's Contributions To The Periodic System

This touching and hilarious memoir is 100 percent Carol Burnett—funny, irreverent, and irresistible. Carol Burnett is one of the most beloved and revered actresses and performers in America. The Carol Burnett Show was seen each week by millions of adoring fans and won twenty-five Emmys in its remarkable eleven-year run. Now, in *This Time Together*, Carol really lets her hair down and tells one funny or touching or memorable story after another. In engaging anecdotes, Carol discusses her remarkable friendships with stars such as Jimmy Stewart, Lucille Ball, Cary Grant, and Julie Andrews; the background behind famous scenes, like the moment she swept down the stairs in her curtain-rod dress in the legendary “Went with the Wind” skit; and things that would happen only to Carol—the prank with Julie Andrews that went wrong in front of the First Lady; the famous Tarzan Yell that saved her during a mugging; and the time she faked a wooden leg to get served in a famous ice cream emporium. This poignant look back allows us to cry with the actress during her sorrows, rejoice in her successes, and finally, always, to laugh.
