SCH3U Online - Chemistry, Grade 11

These gases are: carbon dioxide (CO 2) methane (CH 4) nitrous oxide (N 2 O) hydrofluorocarbons (HFCs) perfluorocarbons (PFCs) sulphur hexafluoride (SF 6) Water vapour, although not on the UN list, is also technically a greenhouse gas. Not all of these gases are equally good at trapping heat.

What are Greenhouse Gases? | Let's Talk Science

Course Code: SCH3U. Grade: 11. Course Type: University Preparation. Credit Value: 1. Prerequisite: Science, Grade 10, Academic. Department: Science. This course enables students to deepen their understanding of chemistry through the study of the properties of chemicals and chemical bonds; chemical reactions and quantitative relationships in those reactions; solutions and solubility; and atmospheric chemistry and the behaviour of gases.

SCH3U – Grade 11 Chemistry. Criteria for assessment and evaluation based on the categories. Knowledge and Understanding. knowledge of content (e.g., facts, terminology, definitions, safe use of equipment and materials) understanding of content (e.g., concepts, ideas, theories, principles, procedures, processes) Thinking and Investigation

SCH3U-Course Outline – Stan's Page

Grade 11 Chemistry (SCH3U) enables students to deepen their understanding of chemistry through the study of the properties of chemicals and chemical bonds; chemical reactions and quantitative relationships in those reactions; solutions and solubility; and atmospheric chemistry and the behaviour of gases.

SCH3U – Grade 11 Chemistry – Online School Canada

Course Description For SCH3U Grade 11 Chemistry Online Course Grade 11 Chemistry allows students to deepen their understanding of chemistry. Throughout this course, students will further develop their analytical skills as they investigate the qualitative and quantitative properties of matter, as well as the impact of some common chemical reactions on society and the environment.
