Sugar Changed the World » Marc Aronson

Sugar is made by boiling the juice from crushed sugar cane, straining it, then boiling it and straining it over and over until it reaches the temperature that causes it to form crystals when cooled. Cane sugar can be traced back to the island now called New Guinea, just north of Australia. From there it spread to many other areas of the world.

Sugar Changed the World by Brandi Sellers - Prezi

Sugar Changed the World does not present itself as a textbook yet it could also be used in Social Studies, History, Government and Economics classrooms. Excerpted material would be appropriate in a study of Jazz or Caribbean music. Submitted by Kathleen Morris
