Bringing Spanish to Life provides an innovative and refreshing cross-curricular approach to teaching languages in primary schools, combining art, design and foreign languages with various aspects of the National Primary Curriculum such as Literacy, Numeracy and PE. This unique practical resource comprises an engaging storyline about a day in the life of two Spanish children and gives an opportunity for learners to re-enact their day, using finger puppets, handmade crafts and exciting games to practise new language. Each of the 14 sections begins with a short accessible dialogue in Spanish and is followed by suggestions for using the new vocabulary in pairs, small groups or as a whole class. The main story is accompanied by fun craft activities linked to the story (one for each section, ie 14 in total) for children to create in class using the templates and instructions provided. A wide range of further activities follows, consisting of lively games, songs and opportunities to communicate simple ideas. Language extensions are suggested, focussing on imaginative writing and reading ideas linked to the theme of each section. Written to support the new foreign languages programme of study, the book also includes: * Cross-curricular links to numerous subjects including Literacy, Numeracy, PE and ICT * Classroom games and activities * Photocopiable resources and templates for fun classroom activities and projects * Language extension activities. Bringing Spanish to Life can be read on three levels to suit a variety of classroom situations. First, the story can be told 'straight' with the whole class participating in the dialogues. Second, the story can be combined with the craft activities after each main section. 14 doing and making activities match the storyline and provide a colourful, eye catching display and learning focus in the classroom or for Open Days or Assemblies. Teachers can use as many or as few as they wish. The resultant crafts can be used for very effective classroom displays/open days/assemblies etc. Finally, the language extension activities can be used alongside the art/craft/design activities as desired. The aim of these activities is to extend the target language in a relevant context through a variety of methods such as songs, playlets, simple communicative exchanges, games with numbers etc.

The Hidden Room is filled with treasure gathered from over five decades of some of the best poetry ever written in Canada. Almost all of the poetry P. K. Page has published in volume form is here, all the way from Unit of Five (1944) to Hologram (1994), together with a good many unpublished poems and poems hitherto published only in magazines, from all stages of her career. A section of luminous new poems completes the volume. Evening Dance of the Grey Flies and Hologram appear substantially as first published, though virtually every other section has undergone thoughtful reassessment by the author with the assistance of editor Stan Dragland. The Hidden Room is something more than simply a mechanical Collected. The inclusion of uncollected and new poems has demanded a re-choreographing, a reassortment of familiar poems into new families. The Hidden Room is quite possibly the best collection of verse ever published in this country. This is the essential, rather than the entire P. K. Page, a lifetime of work that any poet would be proud to call their own.

The Three Sunflowers Los Tres Girasoles is the bilingual version of the award-winning first edition, The Three Sunflowers, with English and Spanish on each page. Further additions are the "Inspiration" & "Dedication" to La Virgen of Guadalupe, Divine Mother of the Americas, Her story and a glorious watercolor illustration of Her. The Three Sunflowers Los Tres Girasoles tells of a turbulent day in the garden where a trio of sunflowers -- the tall, wise Gloria and young Florecita and Solecito -- face unexpected and chaotic events they have no power to stop. Through it all, Gloria guides and reassures the youngsters and reminds them of the nature and purpose of a sunflower's life, "We are sunflowers, golden and radiant. Our job is to be loving and peaceful wherever we stand." After a dark night of uncertainty, the story concludes with a delightful and inspiring ending. This beautifully written and illustrated book offers comforting messages of hope, compassion, love and peace, with new perspectives for living in an unpredictable world. The Three Sunflowers received the following awards from Creative Child Magazine: Seal of Excellence for an Educational Storybook, and Preferred Choice Award for a Kids Storybook.

The Three Sunflowers Los Tres Girasoles

The illustrated book with narrative and lyric support is a sharing of experiences captured by the author / poet / photographer. It embraces a rich and romantic tradition that has remained virtually unchanged in historically preserved areas of Mexico. Pueblos presented are in areas of Puerto Vallarta in the state of Jalisco, Cuyutlán in the state of Colima, and Zihuatanejo, or 'Zihua' as it is affectionately known, in the state of Guerrero along Mexico's west coast. The more recent development of Ixtapa near 'Zihua' is included while not claiming the same historical prominence as with the other locations. Also included is the coastal pueblo of Loreto located in the state of Baja California Sur on the shore of the Sea of Cortez. The village is known for its historical importance and ecological resource opportunities. Each chapter is a montage photo presentation illustrating the rustic pueblo environment and lifestyle often missed by the casual outsider while visiting the area. Included also are original poems by the author written from experience to introduce and enhance the visual presentation of each location. Throughout is portrayed the magic of Mexico as a dedication to its humble and proud tradition. The storyline viewing is of a personally passionate journey welcomed by casual congeniality, exotic food and drink, and a stimulating environment. Viewing the photos with narrative and lyrics will be nostalgic for some and a vicarious new adventure for others. All will be exposed to a gentle culture embraced and preserved by each of the four Mexican locations bordering the Pacific Coast and Sea of Cortez. Mapping old trails has a romantic allure at least as great as the difficulty involved in doing it. In this book, William Foster produces the first highly accurate maps of the eleven Spanish expeditions from northeastern Mexico into what is now East Texas during the years 1689 to 1768. Foster draws upon the detailed diaries that each expedition kept of its route, cross-checking the journals among themselves and against previously unused eighteenth-century Spanish maps, modern detailed topographic maps, aerial photographs, and on-site inspections. From these sources emerges a clear picture of where the Spanish explorers actually passed through Texas. This information, which corrects many previous misinterpretations, will be widely valuable. Old names of rivers and landforms will be of interest to geographers. Anthropologists and archaeologists will find new information on encounters with some 139 named Indian tribes. Botanists and zoologists will see changes in the distribution of flora and fauna with increasing European habitation, and climatologists will learn more about the "Little Ice Age" along the Rio Grande.

Feminism in Our Time

Chemistry, Production, Processing, and Utilization

By placing the global and the intimate in near relation, sixteen essays by prominent feminist scholars and authors forge a

distinctively feminist approach to questions of transnational relations, economic development, and intercultural exchange. This pairing enables personal modes of writing and engagement with globalization debates and forges a definition of justice keyed to the specificity of time, place, and feeling. Writing from multiple disciplinary and geographical perspectives, the contributors participate in a long-standing feminist tradition of upending spatial hierarchies and making theory out of the practices of everyday life.

A captain in Franco's army renounces winning the war - on the very day of the victory; a young poet flees with his pregnant girlfriend and is forced to grow up quickly, only to die within a few months; a prisoner in Polier's jail refuses to live a lie so that his executioner can be held accountable; and, a lustful deacon hides his desires behind the apostolic fascism that clamours for the purifying blood of the defeated. Four subtly connected tales, narrated in the same spirit but with the individual styles of the different voices; these are stories from silent times, when people feared that others might discover what they knew. The line between the victorious and the defeated is blurred - whatever one's affiliation, nobody survives unscathed.

"It deals with a distinguished career which led the Colombian artist from her early stage of "windows" and "doors" to a series of "atmospheres"--In which she seems to leap through the frames of her earlier paintings to find herself before the light that is on the other side and was merely hinted at before. The white canvases of her "atmospheres" - luminous, sparkling and full of matter - in turn fulfill their cycle, opening the way for a further stage which is marked by the recuperation of the object and a new and fresh approach to nature.
