Psychophysiology Of Trauma  
And Trauma Treatment Norton  
Professional Books Hardcover

**TRAUMA THERAPY**  
**As a memory scientist, this book is  
absurd and dangerous. The body  
does not remember  
anything--neurons remember  
information via LTP, etc. Memories  
are not stored in the body. This is a  
dangerous notion because it may  
lead to the possibility that  
sensations are long lost memories  
of abuse--leading to false memories  
and/or false accusations.**
