 The Liar (published 1991) was the first novel of British writer and actor Stephen Fry. The story is told out of chronological order but through the eyes of upper-class Englishman Adrian Healey through his years at public school, at Cambridge University, and afterwards. He excels at lying and his lies are later revealed to have been fictions.

 Stephen Fry is a wit and raconteur if ever there was one. His first novel "The Liar" is an interesting, erudite, comic, and witty semi thriller package. The protagonist of this novel, one Adrian Healey, is always lying to and fooling others. In no great irony the person he is lying to is himself.

 Author Every bit as urbane, loquacious and rip-roaringly hilarious as you would expect from the colossal intellect of Stephen Fry, The Liar is a great evocation of Cambridge University in modern literature. Seamlessly blending campus comedy with a skewed espionage novel, this is an impressive debut from a formidable polymath.

 Stephen Fry's breathtakingly outrageous debut novel, by turns eccentric, shocking, brilliantly comic and achingly romantic. Adrian Healey is unprepared for the long littleness of life; unprepared too for the afternoon in Salzburg when he will witness the savage murder of a Hungarian nobleman; unprepared to learn about the Mendax device; unprepared for more murders and wholly unprepared for the truth.
