English for Academic Study: Speaking & Pronunciation EAS Speaking & Pronunciation is for students who need to communicate clearly and effectively in an academic environment. The book is designed to help students develop the speaking skills they need to participate in academic classes and discussions, and to enable them to improve their presentation skills. It makes use of engaging topics such as: changing roles in the family, the influence of the media, and science and the paranormal. The book also aims to help students develop their pronunciation to a level that will enable the listener to understand them with ease. The Speaking and Pronunciation sections can be studied separately, or used together as part of an integrated program of study. Speaking focus includes: Developing a presentation Participating in a discussion Anticipating arguments before a discussion Using a text to support ideas Presenting information from charts Leading a class Finding a focus for a presentation Designing a questionnaire Participating in a debate Presenting a research proposal Pronunciation focus includes: Vowel sounds, word stress, and weak forms Vowel sounds and word stress forms Consonant sounds and sentence stress Consonant sounds and word stress on two-syllable words Diphthongs and sounds in connected speech Consonant clusters and tone units Diphthongs and tone units Consonant clusters and intonation Each unit has weblinks offering additional information and activities, related to both speaking skills and pronunciation, and the topics covered in the units. A dedicated website, www.englishforacademicstudy.com, offers further instructor resources. The book can be used in conjunction with the following books in the English for academic study series, also published by Garnet Education: EAS Reading & Writing, EAS Extended Writing & Research Skills, EAS Listening and EAS Vocabulary.

This guide is based on a study of referees' reports and letters from journal editors on the reasons why papers written by non-native researchers are rejected due to problems with English usage, style and grammar. It draws on English-related errors from around 5000 papers written by non-native authors, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. English for Research: Usage, Style, and Grammar covers those areas of English usage that typically cause researchers difficulty: articles (a/an, the), uncountable nouns, tenses (e.g., simple present, simple past, present perfect), modal verbs, active vs. passive form, relative clauses, infinitive vs. -ing form, the genitive, noun strings, link words (e.g., moreover, in addition), quantifiers (e.g., each vs. every), word order, prepositions, acronyms, abbreviations, numbers and measurements, punctuation, and spelling. Due to its focus on the specific errors that repeatedly appear in papers written by non-native authors, this manual is an ideal study guide for use in universities and research institutes. The book is cross-referenced with the following titles: • English for Academic Research: Grammar Exercises • English for Academic Research: Vocabulary Exercises • English for Academic Research: Writing Exercises • English for

Writing Research Papers Adrian Wallwork is the author of more than 30 English Language Teaching (ELT) and English for Academic Purposes (EAP) textbooks. He has trained several thousand PhD students and researchers from 40 countries to prepare and give presentations. Since 1984 he has been revising research manuscripts through his own proofreading and editing service.

Writing academic prose in English is especially difficult for non-native speakers, largely because the standard vocabulary used in this genre can be quite different from colloquial English. **Expand Your English: A Guide to Improving Your Academic Vocabulary** is a unique and invaluable guide that will enable the reader to overcome this hurdle. It will become the favourite go-to reference book for both beginners and for intermediate learners struggling with the complexities of English-language academic writing. Steve Hart covers 1,000 vocabulary items that are essential for good academic writing. The first section describes 200 key terms in detail, grouping them into logical sets of 10. Through careful repetition, the reader will find it easy to retain, retrieve, and reuse these essential phrases. The second section explains a further 800 terms, grouping them according to function, meaning, and the areas of an essay where they are likely to be used. The expansive scope of **Expand Your English** gives non-native speakers all the vocabulary tools they need to master this difficult style of writing.

Scientific English is possibly the most rewarding area of EFL teaching. It differs from English for Academic Purposes (EAP) as it is directed to a much smaller audience: PhD and postdoc students. Courses on Scientific English are held in universities throughout the world, yet there is very little support for teachers in understanding what to teach and how to teach it. This guide is part of the **English for Academic Research** series. Part 1 of the book sheds light on the world of academia, the writing of research papers, and the role of journal editors and reviewers. Part 2 gives practical suggestions on how to help your students improve their presentation skills. In Part 3 you will learn how to teach academic skills using nonacademic examples. Parts 1-3 are thus useful for anyone involved in teaching academic English, whether they have used the other books in the series or not. Part 4 suggests two syllabuses for teaching writing and presenting skills, based on the two core books: **English for Writing Research Papers** and **English for Presentations at International Conferences**. This book will help you i) understand the world of your students (i.e. academic research), ii) plan courses, and iii) exploit the **What's the Buzz?** sections in the books on **Writing, Presentations, Correspondence and Interacting on Campus**. Adrian Wallwork has written over 30 books covering **General English** (Cambridge University Press, Scholastic), **Business English** (Oxford University Press), and **Scientific English** (Springer). He has trained several thousand PhD students from all over the world to write and present their research. Adrian also runs a scientific editing service: **English for Academics (E4AC)**.

English for Academic Study: Pronunciation English for academic study: Pronunciation is for students who need to communicate clearly and effectively in an academic environment in the medium of English. The aim of the course is to help students develop their pronunciation in English to a level that enables the listener to understand them with ease. The course provides students with structured patterns of English that will lead them step-by-step towards this goal. During the course, students will also learn the phonemic alphabet; this will remain a useful aid to accurate pronunciation throughout their studies. Care has been taken to ensure that the vocabulary focused on in this course is relevant to both academic study and the general needs of the student. The examples and exercises are based on words from the General Service List (GSL) and the Academic Word List (AWL). The 2009 edition of EAS Pronunciation has been fully revised for ease of use. As well as a new format, the Study Book also comes with a book map, unit summaries and a comprehensive glossary of terms. A dedicated website, www.englishforacademicstudy.com, offers further teacher resources. This book can be used in conjunction with the following books in the English for academic study series, also published by Garnet Education: EAS Reading, EAS Writing, EAS Extended Writing & Research Skills, EAS Listening, EAS Speaking and EAS Vocabulary. Key Features Pronunciation of individual sounds Syllables and word stress Understanding word stress patterns Sentence stress and speaker choice Sounds in connected speech

Critical English for Academic Purposes: Theory, Politics, and Practice is the first book to combine the theory and practice of two fields: English for academic purposes and critical pedagogy. English for academic purposes (EAP) grounds English language teaching in the cognitive and linguistic demands of academic situations, tailoring instruction to specific rather than general purposes. Critical pedagogy acknowledges students' and teachers' subject-positions, that is, their class, race, gender, and ethnicity, and encourages them to question the status quo. Critical English for academic purposes engages students in the types of activities they are asked to carry out in academic classes while inviting them to question and, in some cases, transform those activities, as well as the conditions from which they arose. It takes into account the real challenges non-native speakers of English face in their discipline-specific classes while viewing students as active participants who can help shape academic goals and assignments. *Critical English for Academic Purposes: Theory, Politics, and Practice*: * relates English for academic purposes and critical pedagogy, revealing and problematizing the assumptions of both fields, * provides theoretical and practical responses to academic syllabi and other institutional demands to show that teachers can both meet target demands and take students' subjectivities into account in a climate of negotiation and possibility, * offers "rights analysis" as a critical counterpart to needs analysis, * discusses

*the politics of "coverage" in lecture classes and proposes alternatives, and * features teaching examples that address balancing the curriculum for gender; building community in an EAP class of students from diverse economic and social backgrounds; students' rights; and organizing students to change unfavorable conditions. This book is intended for undergraduate and graduate courses for preservice and in-service ESL and EAP teachers. It is also a professional book for those interested in critical approaches to teaching and EAP.*

English for Tourism and Hospitality in Higher Education Studies The Garnet Education English for Specific Academic Purposes series won the Duke of Edinburgh English Speaking Union English Language Book Award in 2009. English for Tourism and Hospitality is a skills-based course designed specifically for students of tourism and hospitality who are about to enter English-medium tertiary level studies. It provides carefully graded practice and progressions in the key academic skills that all students need, such as listening to lectures and speaking in seminars. It also equips students with the specialist language they need to participate successfully within a tourism and hospitality faculty. Extensive listening exercises come from tourism and hospitality lectures, and all reading texts are taken from the same field of study. There is also a focus throughout on the key tourism and hospitality vocabulary that students will need. Listening: how to understand and take effective notes on extended lectures, including how to follow the argument and identify the speaker's point of view. Speaking: how to participate effectively in a variety of realistic situations, from seminars to presentations, including how to develop an argument and use stance markers. Reading: how to understand a wide range of texts, from academic textbooks to Internet articles, including how to analyze complex sentences and identify such things as the writer's stance. Writing: how to produce coherent and well-structured assignments, including such skills as paraphrasing and the use of the appropriate academic phrases. Vocabulary: a wide range of activities to develop students' knowledge and use of key vocabulary, both in the field of tourism and hospitality and of academic study in general. Vocabulary and Skills banks: a reference source to provide students with revision of the key words and phrases and skills presented in each unit. Full transcripts of all listening exercises. The Garnet English for Specific Academic Purposes series covers a range of academic subjects. All titles present the same skills and vocabulary points. Teachers can therefore deal with a range of ESAP courses at the same time, knowing that each subject title will focus on the same key skills and follow the same structure. Key Features Systematic approach to developing academic skills through relevant content. Focus on receptive skills (reading and listening) to activate productive skills (writing and speaking) in subject area. Eight-page units combine language and academic skills teaching. Vocabulary and academic skills bank in each unit for reference and revision. Audio CDs for further self-study or homework. Ideal coursework for EAP teachers. Extra resources at www.garnetesap.com

English for Academic Study: Vocabulary English for academic study: Vocabulary provides students with systematic practice in using key academic words from the 300 word families and illustrates how to use the information in a dictionary to make a more effective

and appropriate use of their vocabulary. Intended for self-study outside formal classes, the book includes a complete answer key as well as an achievement test that can be used before or following the course to test students' knowledge and progress. The design of the material is based on work carried out on pre-session courses at the University of Reading's Centre for Applied Language Studies. It is supported by an extensive review of research into EAP methodology and reflects the most recent developments in language teaching for academic purposes. The 2009 edition of EAS Vocabulary has been fully revised for ease of use. As well as a new format, the Study Book now comes with a book map and a comprehensive glossary of terms. The 4 Point series is designed for English language learners whose primary goal is to succeed in an academic setting. Academic English learners need skills-based books that focus on reading, listening, and speaking, as well as the two primary language bases of vocabulary and grammar. The ultimate goal is to help your students improve these skills and earn a 4.0 (GPA). The Introduction to English for Academic Purposes (EAP) level is designed for students in academic programs who need a more general introduction to authentic academic content. The discrete skills volumes are designed for programs and courses that want to more intensively focus on key strategies and authentic academic content in one skill area. Each 4 Point volume covers academic skills while providing reinforcement and systematic recycling of key vocabulary issues and further exposure to grammar issues. These volumes focus very heavily on vocabulary because language learners know that they are

way behind their native-speaker counterparts when it comes to vocabulary. Each book highlights key vocabulary items, including individual words, compound words, phrasal verbs, short phrases, idioms, metaphors, collocations and longer set lexical phrases. Speaking for Academic Purposes is an introductory textbook containing English for Academic Purposes content. Each unit includes activities to strengthen a range of speaking skills, notably: understanding classroom discourse, using academic language functions, recognizing signal words and phrases, and synthesizing information. These activities are presented within the context of one field of academic study (Architecture, Marketing, Earth Science, U.S. History, Chemistry, and Fine Arts) per unit. Unique to this speaking text are six videos showing common student interactions. Access to the videos is free. Each unit includes three academic speaking strategies (including one specific to making presentations) and tasks that involve participating in group discussions, interacting with native speakers, and making a presentation. The goal is to provide students with a variety of strategies/tools to master academic situations in which they need to participate.

Based on extensive research, Grammar and Beyond ensures that students study accurate information about grammar and apply it in their own speech and writing. This is the first half of Student's Book, Level 2. The Student's Book is the main component of Grammar and Beyond. In each unit, students study the grammar in a realistic text and through charts and notes informed by a billion-word corpus of authentic language. The exercises provide practice in reading, writing, listening, and speaking, making this a complete course. Students learn to avoid common mistakes, based on an extensive corpus of learner language. Each unit concludes with a Grammar for Writing section, in which students apply the grammar in an extended writing task.

The Routledge Handbook of English for Academic Purposes provides an accessible, authoritative and comprehensive introduction to English for Academic Purposes (EAP), covering the main theories, concepts, contexts and applications of this fast growing area of applied linguistics. Forty-four chapters are organised into eight sections covering: Conceptions of EAP Contexts for EAP EAP and language skills Research perspectives Pedagogic genres Research genres Pedagogic contexts Managing learning Authored by specialists from around the world, each chapter focuses on a different area of EAP and provides a state-of-the-art review of the key ideas and concepts. Illustrative case studies are included wherever possible, setting out in an accessible way the pitfalls, challenges and opportunities of research or practice in that area. Suggestions for further reading are included with each chapter. The Routledge Handbook of English for Academic Purposes is an essential reference for advanced undergraduate and postgraduate students of EAP within English, Applied Linguistics and TESOL.

"English Vocabulary for Academic Success" is for you if you are an English language student. With this workbook and its dictionary, you will learn the most important academic words that you will need for passing the TOEFL test and other tests. These words are important for you for understanding English in college and university courses. "English Vocabulary for Academic Success" is for you if you are studying English at the intermediate or advanced level. This

vocabulary book is for you if you already know about 2,000 basic English words and if you want to study at a college or university in an English-speaking country. With "English Vocabulary for Academic Success," you will learn 540 words from the Academic Word List. You can check your answers using the answer key at the end of each unit and find more information about each word in the dictionary section. This workbook has 10 units, with 54 words per unit. By studying for one hour a day, you can finish one unit in about one week. Not only will your vocabulary improve, but also your grammar will improve as you practice changing the parts of speech (noun, verb, adjective, adverb, etc.), changing nouns from singular to plural and changing verb endings. Your spelling will improve because you have to spell each word accurately. There are exercises for producing each word seven or eight times: definition exercises (one sentence in context); "parts of speech" exercises (two sentences in context); collocations exercises (two or three sentences in context); synonyms Crossword Puzzles; review exercises (one sentence in context). Each unit has a dictionary with: definitions; parts of speech; collocations for each definition and each part of speech; additional definitions for idiomatic uses; synonyms; many sample sentences. Collocations are the key to producing vocabulary words the way native speakers do. A collocation is a word or group of words that naturally go together with a specific word. For example, the word "context" has the collocation "to take (something) out of." Thus, a native speaker would say "Please don't take my words out of context." There are thousands of collocation examples in "English Vocabulary for Academic Success." By learning these words, you will know almost 90% of the words that you read and hear in academic situations. You will read faster and understand much better. Your academic writing will improve because you will be able to produce the words with accurate grammar and spelling and use them with their correct collocations the way native speakers do. By knowing these words, you will have a greater chance to pass the TOEFL and other tests. Free Quizzes: Professionally prepared quizzes for each unit are available for instructors whose students are required to use this textbook. Please find more information in the preface of the book. Instructors whose second language is English will find this book extremely useful. This book provides thousands of examples of how native speakers of English use vocabulary in real-world situations. There are nearly 4,000 contextualized sentences in exercises of the ten units, as well as hundreds more sentences in the dictionary section of each unit.

This book is based on a study of referees' reports and letters from journal editors on reasons why papers written by non-native researchers are rejected due to problems with English grammar. It draws on English-related errors from around 5000 papers written by non-native authors, several hundred emails, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. The exercises include the following areas: active vs passive, use of we articles (a/an, the, zero) and quantifiers (some, any, few etc) conditionals and modals countable and uncountable nouns genitive infinitive vs -ing form numbers, acronyms, abbreviations relative clauses and which vs that tenses (e.g. simple present, simple past, present perfect) word order Exercise types are repeated for

different contexts. For example, the difference between the simple present, present perfect and simple past is tested for use in papers, referees' reports, and emails of various types. Such repetition of similar types of exercises is perfect for revision purposes. English for Academic Research: Grammar Exercises is designed for self-study and there is a key to all exercises. Most exercises require no actual writing but simply choosing between various options, thus facilitating e-reading and rapid progress. The exercises can also be integrated into English for Academic Purposes (EAP) and English for Special Purposes (ESP) courses at universities and research institutes. The book can be used in conjunction with the other exercise books in the series and is cross-referenced to: English for Research: Usage, Style, and Grammar English for Writing Research Papers English for Academic Correspondence and Socializing Adrian Wallwork is the author of around 30 ELT and EAP textbooks. He has trained several thousand PhD students from 35 countries to write and present academic work.

English for Academic Study: Speaking This fully updated 2012 edition of English for Academic Study: Speaking will help your students develop the speaking and presentation skills they need to participate effectively in academic seminars and discussions. The units are based on the following topics: Being a successful student Learning online Changing roles in the family A healthy lifestyle The influence of the media The world of work Protecting the environment Science and the paranormal Studying in a new environment Each unit includes discussions and presentations that relate to the topic of the unit. The written and listening texts will give your students different perspectives on the topic and provide evidence to support their ideas – one of the essential features of academic life. There is also a learner diary at the end of each unit to help students think about the process of learning and the strategies they are developing. The Course Book includes unit summaries to give students a quick overview of what they have covered, and a comprehensive glossary of terms. Each unit also has weblinks offering additional information and activities, relating to both speaking skills and the topics covered in the units. English for Academic Purposes provides a comprehensive overview of the field of English for Academic Purposes (EAP) for teachers. It not only looks at study skills, but also at other central concerns of EAP, such as needs analysis, syllabus and course design, methodology and materials, learning styles, tests and exams, and academic style and genre analysis. In addition to general EAP, the author also considers subject-specific language and the production of teaching materials. Throughout, the author adopts a user-friendly approach in which theoretical considerations are balanced with practical experience. Issues are discussed and illustrated, but readers are also encouraged to form their own opinions by means of stimulating introspect and discuss sections at the end of each chapter.

Exploring Vocabulary

Practicing Academic English Words and Grammar

One of the main problems faced by both teachers and learners in English for Academic Purposes pertains to the question of which words are worth focusing during teaching and learning. This corpus-based lexical study aimed to explore the use of words in Coxhead's (2000) 'A New Academic Word List (AWL)' in academic journal articles in the field of Islamic studies. Around 472,621 word corpus, called the Islamic Academic Research Articles (IARA) corpus, was created for this study. The corpus consisted of 66 research articles written in English that were published in more than 10 different Islamic academic journals. In order to simulate rich natural contexts, these articles were selected for being both authentic and academic covering a wide range of topics in the field of Islamic studies. The study found that the most frequent 317 AWL words which occurred in the IARA corpus was only 56% of Coxhead's AWL of 570. This finding points to the need for a special AWL for students of Islamic studies. The findings suggest the need to produce field-specific academic word lists incorporating all frequent academic lexical items necessary for the expression of the rhetoric of the specific research area. The findings also revealed that some of the words which were found in the present study were not found in Coxhead's influential Academic Word List. This may be due to the general nature of the AWL. This suggests that vocabulary needs of students in the Islamic studies are characteristically different from those of students in other disciplines. Researchers and teachers therefore need to deal with these learners separately.**Key words: English for Academic Purposes (EAP), Corpus Based Study, Islamic Academic Research Articles (IARA) Corpus, Word Family.**

Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics, primarily designed for those beginning postgraduate studies, or taking an introductory MA course as well as advanced undergraduates. Titles in the series are also ideal for language professionals returning to academic study. The books take an innovative 'practice to theory' approach, with a 'back-to-

front' structure. This leads the reader from real-world problems and issues, through a discussion of intervention and how to engage with these concerns, before finally relating these practical issues to theoretical foundations. Additional features include tasks with commentaries, a glossary of key terms, and an annotated further reading section. Vocabulary is the foundation of language and language learning and as such, knowledge of how to facilitate learners' vocabulary growth is an indispensable teaching skill and curricular component. Exploring Vocabulary is designed to raise teachers' and students' awareness of the interplay between the linguistic, psychological, and instructional aspects of vocabulary acquisition. It focuses on meeting the specific vocabulary needs of English language learners in whatever instructional contexts they may be in, with a special emphasis on addressing the high-stakes needs of learners in academic settings and the workplace. Dee Gardner also introduces a new Common Core Vocabulary, constructed from two of the most well-known and contemporary corpora of English—the British National Corpus and the Corpus of Contemporary American English. Exploring Vocabulary is an essential book for undergraduate and postgraduate students studying vocabulary within Applied Linguistics, TESOL, or Teacher Education, as well as any teacher working with English language learners.
