while.

~~Why We Hate the Oil Companies: Straight Talk from an ...~~
While chemical plant construction is booming in China, India, and the Middle East, the United States is rapidly losing much of its chemical manufacturing base because of cost increases for feedstock, primarily oil and natural gas. Many people believe that we are losing our manufacturing jobs because of high wages.

The problem I have with "Why we hate the oil companies" is not so much its message. By itself, it is rather interesting to read about the energy and environmental problem through the vision of someone from the inside of what is usually portrayed as evil itself. This book does the job of giving that inside view quite nicely.
