

Xxxi Conferencia Interamericana De Contabilidad

La sociedad contemporánea se enfrenta, parca en ropajes, al vendaval provocado por diversas crisis simultáneas: crisis sanitaria, crisis económica, crisis política, crisis educativa, crisis climática, etc. En esta situación, corresponde al mundo de la academia, al ámbito erudito e intelectual el tratar de hacerse valer y demostrar la importancia que tiene para afrontar el desafío del futuro. En la biografía de cualquier persona suele haber alguien que ejerce una influencia benéfica especial. Esos individuos actúan como luces en el camino que orientan en las, a menudo, procelosas situaciones vitales que nos toca vivir. Precisamente eso es lo que nos proponemos en este volumen que, a falta de un término más adecuado, podemos calificar como monumental. Pretendemos ser una luz en el camino del lector que se aproxime a los diversos estudios que se acogen en estas páginas. Aquí se encuentran los resultados de investigaciones muy variopintas que tratan, en la medida de sus posibilidades, de dar respuestas a interrogantes diversos que atañen al quehacer cotidiano, a la forma de entender la vida y

la realidad, en definitiva, a la construcción del mundo.

Beyond Small Change

Sociology

'The Midnight Magpies gather up, to form a magic choir. They sing their songs all through the night and never seem to tire.' A gentle and melodic verse that evokes the sound of a magpie's warble through the still night air, the power of music to soothe and heal, and beauty all around us, in the sights and sounds and scents of nature.

La inflación y los estados contables

Improving public services, using State resources efficiently, and managing State agencies effectively have been ongoing concerns of Latin American and Caribbean (LAC) governments since the beginning of this century. Government officials are now paying closer attention to the results obtained by their administrations. Citizens are now demanding not only universality but also quality in the services that the State provides (e.g., education, healthcare, and legal services). To meet this growing demand for public sector effectiveness, governments have formulated new laws, created or modified institutions, and implemented innovative management methodologies and instruments. Based on data gathered in 24 countries, this book analyzes the current situation, the progress made, and the challenges still facing the governments of the region in their efforts to achieve more effective public administrations.
