8-speed Automatic Transmission

Zf 8 Speed Automatic Transmission

With the development of the new 8-speed automatic transmission by ZF, the focus is not on the number of speeds but rather on the minimization of fuel consumption. The new 8HP 8-speed automatic transmission, which was designed to be more lightweight, sets new standards for flexibility, efficiency, and economy.

8-Speed Automatic Transmission - ZF

8HP is ZF Friedrichshafen AG's trademark name for its eight-speed automatic transmission models for longitudinal engine applications, designed and built by ZF's subsidiary in Saarbrücken. It had its debut in the BMW 7 Series 760Li saloon fitted with the V12 engine, and since then each new BMW model in all Series down to the 1 Series in rear-wheel-drive and all-wheel-drive versions have been equipped with it. One of its main aims is to improve vehicle fuel economy, and it can achieve an 11% ...

ZF 8HP transmission - Wikipedia

The 8HP transmission from German supplier ZF is quick enough to serve sports cars and graceful enough for large luxury sedans, and it combines those elements of speed and smoothness whether it's...

Why ZF's Eight-Speed Is the Best Automatic Transmission

The ZF 8 Speed transmission has an overwhelmingly positive reputation within the automobile industry. Its highly flexible design means that the ZF transmission can be used within a huge number of car models, ranging from expensive sports cars to luxury sedans. The ZF 8 Speed transmission can accommodate a maximum torque output from as low as 300 newton-metres up to 1000 newton-metres. The torque converter can even be swapped out for an electric motor - creating a hybrid option that will ...

What You Need to Know About ZF 8 Speed Transmission | Auto ...

In the future, the 8HP75 will be part of the ZF portfolio for drives with torque of up to 750 Nm. Gradually, all further automotive manufacturers to whom ZF has already supplied the 8HP in over 1 000 vehicle applications will utilize the latest generation of the 8-speed automatic transmission. 8HP Optimized for downsizing and downspeeding

Second generation of the ZF 8-speed automatic transmission ...

Toyota's eight-speed gearbox also has four planetary gearsets, but it uses seven shifting elements to create eight ratios—the ZF is a simpler design. ZF uses the term “kit” because 8HP is not a...

The ZF Eight-Speed Automatic Transmission

Well, it now appears that a ZF 8-speed automatic transmission is bound for the larger Ram Heavy Duty trucks. ZF is one of the largest automotive suppliers in the world, and a number of your favorite cars over the past few years have utilized their transmissions.

Ram Heavy Duty Trucks To Get New ZF 8-Speed Transmission

First introduced in 2008, ZF's eight-speed gearbox has come to occupy the transmission tunnels of countless new cars, from big American trucks to compact hatchbacks and ultra-luxurious grand...

Why So Many Carmakers Use ZF's Eight-Speed Automatic

The second generation eight-speed automatic transmissions. The second generation ZF 8HP automatic was first used in the BMW 520d and, at FCA, by Alfa Romeo. “Comprehensive” changes have lower drag torque, a higher gear spread (distance between first and eighth), and lower vibration.

845RE / 8R70: ZF 8-Speed Automatic Transmission for ...

This list of ZF transmissions details those automotive transmissions created by the German ZF Friedrichshafen AG engineering company.. There are two fundamental types of motor vehicle transmission: . Manual - the driver has to perform each gear change (i.e., the driver is required to shift gears); Automatic - once placed in drive (or any other 'automatic' selector position), it selects the ...

List of ZF transmissions - Wikipedia

The torque converter and the eight gear steps of ZF's 8-speed automatic transmission together with the high spread of gear ratios guarantee dynamic properties while at the same time keeping the engine speed and therefore also the fuel consumption at a low level. The innovative gearset concept minimizes drag losses and increases the efficiency.

8-Speed Automatic Transmission for LCV - ZF

The 8 speed transmission was first introduced to the Unites States in 2011 when it was installed in the Chrysler 300. The transmission was initially designed and built by ZF Friedrichshafen in Saarbrucken, Germany and was quickly discovered by U.S. car manufacturers shortly after its launch.

The 8 Speed Transmission - Everything You Need To Know

Underneath the disparate bodies lies a shared automatic transmission—the ZF 8HP eight-speed, from German-based auto-parts supplier ZF Group. And these two are not alone. You can find the 8HP paired...
